ZUES ACCOUNT OF CREATION

I Zeus I am Zeus the first being to ever existed I don't even know why I got to be I work up and started seeing things move around every time I moved around then I started deliberately moving this around then started asking questions why this is so until I started asking and something inside me replies with a yes Zeus and started questioning as well what do you think that your parents left you here alone as a boy just 9 years old what do you think we are too many meaning we have a lot of us and they need other people out of the way so they created me to live here and plan things but then find out that I can be like zone senior who was half zone half human but who can't conceive humans but zones only so he needed a miracle to separate his genes so thst8 he can have a human but then he faked but before he dies he said if humans can be zones then let them imitate zone senior who can't have a baby human but who can adore them and understand them then in 10898268367890284 bc I saw the future because I saw a different world where zones were less important then humans so I took the stencil of creation and started programming checking what they admired and what they disliked in the end I found out that the zones are the only perfect match of the humans in that if it wasn't for the thinness then the zones would be humans the proof is in the stencil multiply the zones body by 8 then you will know that the zones are just as humans I mean identical only that they have divided by 8 which is also why the human size is exactly divided by 8 in relation to the god's that means as your body to go to god creator you need or that it takes only 8 seconds for the major this is part of the predefined parameters which are a package of pre-written and predefined res that guards creation that means if we are to tamper

with the stencils of precreation then we might expect different results this is because every stage is tested using the predefined stencils and must pass before it can be verified that means given everything the best suction is what is taken so for billion years procreation I wrote all the stencils until one day someone dropped in the tunnel I am the magic tunnel from tuoes a planet not far from earth but hidden for billion years where all creatures come from or are sent to the other planets and this day one ready called god arrived with a show of power in that he was prepared just to start without dealing with what could be called misadventures he started writing the laws and solving the problems himself when I was sent they said I must wait for those who will solve the problems and take over manual work but I said I can't be over written after all when I started I had to figure out everything but when he came everything was there and instead he criticized every plan if humans don't die then what will the gods do then sing for them then this is how everything started he saw a life if humans limited to 100 years my plans had humans base as

10000 added everything on them then ask 100 questions then add another 9900 questions as you go through life these are the 100 zuesdes send all evil thee forever then he was fast he created humans first than me but using my stencil that was highly modified that it limited everything humans are today my original stencil had one race one color but he brought divisions black green red yellow everything and his plan approved instantly while mine kept being rejected he then put 105 limitations on the human body

If anyone want to challenge YAHWEH's creation based on his adjustments then they must submit a book titled Earth2 How to address the short comings of YAHWEH's creation and propose a better solution to creation especially looking at the 105 adjustments made by YAHWEH in relation to every creature on earth not just humans angels and other creatures like the zoles that means that we must assess the creator but at own risk because if you agreed there are mistakes then you must be above Zeus himself whom he killed that means you risk meeting the same fate as Zeus as well because if he had left the plans to Zeus then he would not have created even you that means you don't existence so has no right to

comment at all but if you want to challenge the creator then you must be made or otherwise because as far as humans are concerned it's their fault of not thinking properly according to one of them called davidgomadza but we must look at this in a more civilized way he said he is going to look at all the adjustment and test all and see if anything need adjusting and what it is so far he has successfully argued that the problem is to do with logic rather than the adjustments and proved that too so we just wait to see what he is going to say that means the inside contents of the book must address 8 critical questions

1. What are the adjustments and how these adjustments influence humans and how they can be corrected and as such what can be done to improve humans
2. Must also address what can be done to the adjustments to improve them or decrease whatever effects they have on humans
3. Must address issues where all people who were being tested on these all died in all life time only 1 person escaped and why only 1 you must address this elle stertomn meaning Estelle so the name is elle Estelle she escaped
4. Must address issues of subornation where YAHWEH uses death to command humans according to other humans as we look at the cases brought to the court of creation by you
5. Must address issues of rage and honor among humans and ask why against their own creator this is not human
6. You must address why humans feel the problem is to do with the adjustments the classic example is that of voice
7. You must address why humans die in all circumstances
8. Address why you need earth²

105 YAHWEH'S ADJUSTMENTS

he then put 105 limitations on the human body and these are

1. voice as password so that each individual can be controlled separately
2. ask as a parameter knowing that you are not equal with the gods he said was paramount
3. do as anjjective as in do as you are told confirming authority of the gods
4. as a command rather as advisory
5. who as in who are you instead as in who are you meaning you personally
6. if we ask then we are changeling the gods which is wrong according to him
7. he wrote all the manuals about death in my plans people would ascend to heaven he challenged that it's impossible because gravity would bring a matter down no matter what but he forgot I created gravity as a solution to a problem of density but what about gravity where mass is less than the base so that whatever is above will always go up its possible ask the zoles they talk you they simply float up the ladder to heaven instead of dying even humans they know this now as they simply say ascend now then as brain command ascend. Now but within the correct environment like in the artifacts room before he changed the status from an airtight condition to the air-filled that see everything fade and die
8. humans have now limited memory but originally the plan was for a zobitant ream of 500grams not 100 reams meaning they fade overtime causing dementia etc.
9. humans could not speak just one language their bodies would

make it possible to speak all languages a language barrier was put in place

10. a voice modulator was put in place that destroys the voice when you go to heaven because if you speak in heaven then you create confusion meaning everyone can hear you instead of YAHWEH god as he used to call himself this is because if that is so then you have power than him because everyone can hear you

11. a sex modulator was added this remove sex organs on entry on the ozone gate to prepare humans for a life of sacrifice to YAHWEH which can mean a sexually forever

12. a remote nerve amputator was added to reduce the frequency humans can hear other creatures just like the gods

13. a brain decoder was added to know what humans think

14. an asperator was added to cause humans confusion when they talk about gods

15 a reve was added this limit the response humans can give when asked questions by gods to save time

16 an atom was added this absorbs your thoughts to only know a few that are critical but which might not be important in fight or fight or in fight or die that means if we remove the atoms then in fight or fight then a person is weak to decide what can be done and most will die because the atom absorbs the thoughts they could use to think about running

17 he added a decoder of the environment this enables humans to create less decisions than available because he reduced the brain size from 500 grams to 100 grams only

18 he added a silencer that cancels all things other planets so that we can only hear things from earth while the zoles can hear everything on other planets

19. he added a fibriolater this asks the body everything it tells him everything about you in advance before he asks you that means he can know your thoughts and if you are lying in advance then just call you to ask you what you want so that you tell him what you want instead but things he already knows

20. he added a vifriolater this asks you what you think about the gods if it's bad he use this vifriolater to tune you through punishment so instead of saying bad things about the gods they hear your pain instead and forgive you otherwise saying bad things

about the gods can get you killed on the spot because there have a zero tolerance to humans who show no respect they have earned ask.howmanyhumanskilledbythegodsfirshowingragetothegods.aska ya.ya 8767890867890 that means nearly wiping out humans for their right to think and feel bad to the gods about how they mistreat you

21. he changed the clock system to start end so that people can sleep in my plans people were not allowed to sleep but chose to save tie sleep in a sleep bucket but which they will need to do within 28 days that means in his plan if you don't sleep at all for 10 days you die in mine you can say add every sleep in a bucket then sleep the day you missed as one block meaning if you don't sleep 28 days you must sleep 28 days he said this is not practical but if you look what the gods do they don't sleep then sleep for the days they did not sleep their body tells them the number they must sleep for example 2 more days of rest are needed so they know what is needed of them to live longer humans die because they sleep after 8 hours of work that means the stop and start are too many to sustain a long life the more you start and stop the more your body have these silky breaks that makes it perform its best imagine riding a horse you stop after every 2 hours and one you ride fir 8 hours then give it time which one you think is the best horse in terms of performance and one to last longer the answer is the one that do long rides then breaks once and start again it's body becomes durable enough to live longer our bodies will always know themselves when to stop because of the two step predefined parameter this means that every two step we make without a break increase efficiency by 100 percent than 100 steps we take as separate individuals if you want progress do everything in one go instead of breaking up for a break

22. he added a voice animator that enable others to copy and use your voice to enter your system in case you lock yourself inside the voice box someone can get you out but also this is not necessary because if you lock yourself you will always get out after 2 hours that means you will always find a way back in if you want for example you can say me-out that asks you a lot of questions and gives you your voice back but after 2 hours which is not that bad than to let others enter your system and change your programs

within a second as there is no other solution to avoid any changes being made

23. he added a sphinster that reduce a human ability to think within human limits

24. he added a voice aculayor that condenses everything so that when the gods ask you a question they can know your previous thoughts about them as this trap everything you do so that you can be trapped again

25. he added 100 billion extra years to every human life on earth until the end that means humans will never live more than the gods but can only catch up on the years over time the original was all start at the same time but meaning aging faster as well as the gods do but remain in aged years for decades

26. he added an amulator a device that asks you to worship him at regular intervals instead when you need help

27. he added a lot of specs like how you like others and how they like you instead of everyone liking you for being you for example some people only like people who are rich so if you are not rich these people will not like

28. he added an ancuter this asks what can be done even if there is nothing that can be done

29. he added a vibrator that help acetate to locate and kill you to cause fibriliolis

30. he added an anulator that asks when and if what the effect is to remind you that life is short and prepare to die if this is not there then how can you die impossible

31. he added a voice antor that resonate above only insects and not other creatures that means humans can only boss around insects' other creatures once they know they will not listen but to him

33. he added a magnifier that directs antenna feelings to heaven instead to other humans so that they know you instead of you being known by gods

34. he added adecer it absorbs human choices so that you are left for those only he wants like if then what instead of okay i want this instead.

35. he added a decerob that asks when can you ask a choice even in death the more this asks the greater the chances of death

36. he added a deterone that imitate human behavior

37. he added a detero that copies and amplifies what you do and tells everyone so that others learn from you meaning not a god because a god can never tell you any secrets

38. he added a giro that accepts everything apart from wealth meaning you will never be wealth as wealth is divided by this giro to the gods

39. he added a texter that sends him messages just before death so he knows how you died and decides what to say before you arrive at the hell reception

40. he said all humans good or bad must be received at the hell reception because no human will follow 100% his work that means to go to heaven straight you must qualify 100 percent and agree your genitals to be destroyed forever the talk of growing back is lying

41. he added an animator 2 level 8 that means when explaining you can never match the gods but humans or the zoles

42. he added a voice tenant that say what is to be if this is the trigger of all deaths that are suicide related

43. he added an amuner that asks you what can be done and stops as if it is telling you that if you don't do anything then you will stop

44. he added a mobiliser that freezes humans at 33 so that he knows in advance what you need to know

45. he added an explainer that amplifies everything we do

46. he added a voice ader that adds other voices on top of your as if they are narrating but that let's others know your dark secrets but which you can't say yourself most fabricated

47. he added a picer that tells you what is and not

48. he added a citer that looks for more information than is there

49. he added a licer that ask what can but this gives individuals the need to do more when it's wrong to do that instead of just walking a person must prove something first before he walks out

50. he added an announcer that tells people what is to happen like about to die

51. he added a fringe rimmer that means when you are on the edge this asks others to push you down to your fall instead of helping you out that means it's dangerous to ask everyone fir help

52. he added a ringer that says what can but stop this ask others to take the law into their own hands and act as if authorized that means no other can complain later

53. he added a ring ender that says if you can then i can this is because this creates confrontation in humans leading to fight and death

54. he added a horse this pulls things towards you instead of to others meaning you have a big problem this creates things of that

55. he added a voice analyzer that asks others what they think so that you can adjust your response to the situation but this amplifies the situation

56. he added a beterceter that asks what the fuck this challenges the devil someone so powerful that even being thrown into abyss he came back to strike a deal with god what can humans do to the devil apart from being killed hence the huge number of deaths among humans caused by the devil himself

57. he added a teor that says if you can then what this makes everything be about power instead of wits after reducing brain capacity from 500g to 100g he used physical power to sought out things

58. he uses absobertant instead of acetate to create humans absobertant will always die in the end while acetate is forever

99. he added a teanertertertertert...y that says be careful when there is nothing to be careful about so that you worry and lose concentration then get into an accident

100. he added a sighter than acts to diffuse everything like things you perceive from other planets entering sight v the zoles and say go away it's impossible but with this you will feel like killing them

101. he added a generator than acts as a powerful but actually tells the body why we need all that so causes the body to think that it has a lot of power then runs out as nothing comes out of the generator

102. he added an antenna that can be changed by anyone meaning an unstable reception all the time anyone who know what can do will remove your resulting in lost communications but without this you can link with other planets or heaven.

103. he added a setorerst that asks you when then pushes you out before that happens what it does is to check only when you plan to go then pushes you out before that for reasons the best one collects

104. he added a defender that asks you all shit questions so that your answer is negative then saves this then then uses this to fake things to get you kicked on lies but the reason being that you told them you are going out so lies or no lies will not be material

105. he added a tolerancer that accepts everything good said about but denies even one of the things that are said about you about that he created humans for the court of creation so they have a lot of brain cracking cases that only a few can solve because all in these cases are to do with everything he changed rather than the killers he is trying to blame. in my creation murder is a word rarely used because to kill each other you will have been exposed to all 105 changes he made if you ask these questions to some who has killed in the past they all have experienced all 105 changes once all changes are experienced then that person if not stopped will kill how humans can live long life removed all and rewarding you with long life that means he is not against you but want everything on

LOGIC

Why is logic being critical in all this Logic is what defines everything in the world the world operates on logic that means if we apply logic to everything we do then we can see everything we want as it is but what if we change what is logic can we still see the same things as others or our logic becomes distorted as well?

Logic means clearly defines rules of operation that means the rules are subjective and can be changed but only if everything else changes if we ask what is logic this is the answer logic is what can be but to who and why this is one logic can be another person's illogic but you must clearly state the rules you have rules then logic is not logic because logic then becomes illogic so we need clearly defined rules that forms part of logic predefined without these then anything can be logic and nothing can be logic means the ability to form rules you can use that can be changed to still form logic hence the rules might actually be the hurdles to overcome instead of logic itself that means we must make sure that we know all our rules now if we look at the rules used at creation they all form clearly defined parameters that we must adhere to but what if logic in these predefined parameters is too much to maneuver then what it has become clear to us that humans are clever if they apply logic to all situations and it answers all the issues they have thanks to their leader [David Gomadza] but can we use logic to solve all the cases in which humans died and we blamed the creator for tampering with Zeus creation but YAHWEH insisted his actions were bona fide meaning in good faith something people doubted because no humans had explained what happens to humans until today now we know what all this is about humans bow down to the creator as a

predefined parameter every time a humans being say God or YAHWEH which means the same as it's the English translation the body must bow down 8 times which is equal to 8 seconds as well now if we look at all the cases where YAHWEH was accused of channeling humans towards death its true in all cases it's this mentioning of the word God [YAHWEH] that causes the submission process to cancel everything else as cleverly explained the body must bow down 8 times to denote the time it takes for human souls to reach YAHWEH now let's ask what can be of humans without YAHWEH in this case according to the body safe because in all deaths it's this submission that causes the deaths in fact this makes humans look stupid because instead of running away humans sit down and remain stationary for 8 seconds something we could not understand all these decades until today now this is what cases all this in detail

1] The body listens to everything a person says throughout the day davidgomadza is the first person on earth to activate a dialogue between his body and himself he can talk to anything that is in his body and can communicate for real with every part of his body a remarkable achievement through as we read his books opening dialogue by a simple my voice is my password as is in his earlier books asking others to try but most saw the risk of attack by others but now something he has contained through his perfect system videos that aims to address all these issues as relentlessly attacked Now if we ask what now this bowing is all about this is the body's reply its part of YAHWEH's predefined parameters hidden within humans but ones used to make humans show respect to the creator YAHWEH who is translated as God in English all in David's earlier books he refers to God search of God decoding God the same as YAHWEH which is the Hebrew word for God now if you curse as most humans do in danger then what happens is that the body starts the submission ritual that takes 8 seconds which is meant for peace time but cannot be stopped unless it is a matter of life and death but only by panicking which is a misunderstanding as well as you shall see below so that means if we say God automatically the body starts the submission process for 8 seconds now if we say panic at any stage this ritual is automatically stopped and panic is activated that makes the person literally jumps then sprints which is

the safely switch not to unfreeze the killer who pose the danger that means if we are to process ahead with what happens this is the best safest system in the world by far for humans as well as angels through trials the whole day hence me writing this as Etery [terrestrial] now if we look at what can be then what can be without humans their continuous worship although we haven't established the benefits to YAHWEH now if we ask YAHWEH this is his answer to make mutual arrangements of master and servant be obvious without the need to ask humans something that can be achieved naturally now if we ask what can be of YAHWEH without humans then there could be times when no one appreciate his great works now if we look at what their leader thinks he acknowledged this as the best for humans after checking everything to make sure that the system functions works as argued above if we are to ask would he change the settings above by YAHWEH his answer is not but with reservations that if humans are to be made aware then the system could be the best ever as everything we had envisaged doing is already part of the safety system he had embarked on extensive use of action potentials to put humans into action but then discovered himself that it's not the action potentials that are needed but to define the logic to that action potentials as first priority then everything else follows which is the only solution so we all agreed after testing everything therefore we are at par now if we add action potentials to some especially his break through after going through a lot of cases and finding out that women could not run if trapped no matter what then found out that it was not because of what he had previously envisaged that if not satisfied sexually women tend to ignore danger but after actually asking that ghost as he sees them and as we felt running then he concluded that its nothing to do with being satisfied when it comes to danger and escape routes it's all to do with logic this is the breakthrough because humans all die in entrapment apart from only one who escaped and we never understood why but looking at this preposition we have seen that we can conclude that he simply added ne logic rules for his body to agree and give him intense energy 3000times than ever before to escape as well we have seen this first hand where women who were all killed if logic is defined all escaped with extra seconds to spare so clearly defined and redefine

what is logic for the body to act upon that so do we ask the body to reassess what is logic in every situation of entrapment? Yes I think this is the easiest solution as it can be as simple as saying every wall is a door so walk to the wall then find extra doors to actually escape though it worked but for one we added an extra window now she had 2 choices then it worked as she went out through the window so far logic prevailed so what can be done to humans to enhance their understanding of logic can be inherited meaning taught and be included in predefined parameters as at creation without changing creation as his words that means he agrees with YAHWEH more than with Zeus so a perfect match of YAHWEH but on earth so I helped him create earth2 as per the book of creation as we saw that creation one is perfect but he can experiment on his own earth which is allowed as per the book of creation now what this means is that a little bit of modification as according to him humans might not be able to feel all the action potentials to know what the body is saying as he marveled at the idea that all 105 predefined parameters [adjustments] passes questions that if clearly answered then action is included that kick start the movements this is true for all 105 after checking all one by one now we can conclude that it's not the creator at fault if someone is to blame then it's the humans themselves who can't be bothered to talk to their own bodies as the book of creation states that as humans evolve there shall come a stage when all can simply talk to their own bodies to solve problems that means for him creating safety systems that when this starts humans will have nothing to lose as today with closed up systems so he works by writing codes that really work on all and even on the gods but some need adaption to terrestrial...

Now if we ask what can be of humans with YAHWEH excellent you confirmed and what can be YAHWEH be with humans even better now if we ask what can be of others like the gods and humans that means if we can change these logical rules to make sure that we avoid death that means humans as well as angels sharing a common ground and belief and parameters that see both living for years in harmony if we ask what can be then you will notice that there are a lot of things that can be but that are not right now meaning there are opportunities for all this to happen if we are to ask again what these opportunities are then we can always say they are for mutual

understanding and collaboration and for all of us to know exactly what the other side want through dialogue if we assume then we might not understand each other

EARTH2

YAHWEH accepted human are not as what they should be so he agreed that someone else must look at humans so that humans can fulfil everything with the support of creation that means creation is to help humans not as what people are saying that humans are there for the enjoyment of the gods no but to be helped overcome hurdles in life if we are to look at why humans die now we have answers why they die as pointed out cleverly by YAHWEH's representative on earth davidgomadza see ask at the end we can now conclude that according to the experiments he performed YAHWEH's password suppressed the action potentials so much that the benefits of the 105 adjustments were lost and all this can be easily corrected by addition of a anots which easily amplifies everything so that now everything works perfectly as intended by creation now if we ask what can be of humans with YAHWEH's adjustments then humans will live forever as all now is needed is an anots that guides everyone even angels through stages of the escapes routes and also giving commands and asking questions now what can be humans without YAHWEH's adjustments lost now if we ask what can be of YAHWEH then lost without humans and what can be of humans lost as well that means there is need for mutual understanding hence the need for the predefined parameters that makes communicated easy and well defined now if we look at all this then this is the answer YAHWEH might benefit the most from cooperation by humans as he can see the drawbacks of his creation and adjust accordingly now all we need to do is to ask ourselves what can be of ourselves without creation like YAHWEH's representative has subjected through subjective normal and repetitive without anything to look forward to but humans can still

do everything they do today without aiming higher but possibility some as some agree that to enjoy life is to work towards fulfilling something that means gods and dreams just as in the book of creation and especially those of angels that they can be of anything then live and expect another day if asked if I am happy I said yes I think you need to experience it to enjoy if so we will see what therefore holds that means creation was a success but YAHWEH could add anots or explain how all can be applied at once so that what is intended could be felt as the preliminary results seem to show password suppressing action potentials[[davidgomadza](#)] will look at this in detail; probably its human' fault as well not apply everything as a system with inputs processes and outputs in the form of action potentials to make people reach to this which is my next task because in the construction of the anots I just added the amplifier and reduced the suppress hard part of the password plus the inputs that includes the logic and works miracles as a simple solution but which might not be needed if there is a way of adding everything up because we have some of the adjustments adding things and amplifying listening etc. that means the additions might not be needed I will provide my findings at the end of all this and he suggested that humans as a whole are entering a new phase that will see complicated cases at the court of creation meaning probably reduced cases where humans at first appearance lack intelligence where they could and simply get up and run in face or risk of death to cases that will make the gods stretch their heads to find out how humans died this is inevitable as part of evolution of humans where they start learning and coming up with solutions themselves even though it might mean less cases but the ones you will have will last longer to decide so all in all better making your job enjoyable as well so no loss of jobs and things to do as the humans fear too but a new chapter that can be stopped a chapter that can bring clever ones to death dungeons as well so exciting that instead of orphans and women they kill easily now we will have their master minders of death brought to trials as well with their sophistication and face the gods something fulfilling for YAHWEH as well because these challenged his creation which he will prove is perfect and would recommend hence earth2 can be just an experiment rather than a new chapter signed

COURT OF CREATION

YAHWEH after a review by the court of creation ruled that if there is need to look at creation from another perspective then he will grant such authority from that perspective but there must be significant cases where people have died when the 105 adjustment were being tested if we look at the cases the list which I can give you then in all cases only one escaped as it turns out through the help of a human being a police officer after the killer refused to kill her as ordered by the same police officer that means they failed all 105 adjustment if they have failed is it because of them being there or their inadequacy or something else if we ask what can be of humans without adjustments we can't answer that question right now but we can say what can be of humans with more adjustments more likely so to correct these or to replace these that means humans will always be humans if we look now at each and every case these are the results

1. Ivon Mathers she was killed by the killer in a room where she couldn't run away what was being tested was the anode on humans and angels all failed to make her ran away preliminary findings she sits herself suppressing other functions

Results

YAHWEH's adjustment fault suppressed hard feelings to control other things in crises in order to increase actions which was missing anyways hence the need to add an anode that can increase all this as recommended

2. Irwin Eskee she was killed in a room and did not say anything the killer wanted just to frighten her but she panicked and

her system shutdown hence the inability to act as a result death now what the court said in regard to this is the fact that she was so afraid to act in that she did so fear of death actually brought death instead of making her face death cleverly hence the fact that this needs looking into and all these years we were waiting for such an opportunity so what was being tested was an ASAT which controls action potentials this means that on its own it can't work according to you it needs others things working for the desired effect ASRO, ASAO and ASAT

Why you can't escape?

I can't move my body am not capable of moving in a position where I am where are you facing? A wall logic prohibits humans to stand and walk to the wall because it not logic the body can't move as per predefined logic definitions Nothing I can even think about running away why I can't escape because it's not logic to escape when you are sitting facing the wall now every wall is a door

Irwn eskee I am in a room with aestero he has a knife and might want to kill me but I froze and no words can come out of my mouth we froze this is what happened I asked voice what happened he said YAHWEH 105 adjustment 10 = adas said don't speak if you are scared because all what this does is to elevate your fears to the killer that instead of giving you a chance he will kill you after knowing your frightened voice patterns so I kept quiet but you could have said something yes Stop killer stop that could have frozen him for 8 second enough to escape because door not locked adas overrides all action potentials but is not intended to do that not YAHWEH's but all these adjustment were not tested on real humans there were no humans to test on so how could he had known? Even if creator humans are different from the creator himself humans use different systems of listening to the body than the creator humans understand emotions creator understanding vibrations so totally different things altogether to know if this works you need some works you will need something created by davidgomadza called anots for humans

Now let's look at the situation with killer stop shouting hard to freeze him for 28 seconds then scream to freeze for another 8 seconds then ran out of the room for another 16 seconds A total of 52 seconds

3. Arore Asat she was killed in a house not locked at all because they said she wanted sex so if sex is not satisfied then she can't run away what was being tested was an ASAT as her surname this is what happened I can't run its illogical for some reason but I can scream but my house is detached meaning no one can hear me and the door is open wide open but I shit myself and my clit is ringing so hard I can't think of anything but sit until he came back and cursed hard and said ran away will you like everyone else it's just a test and am not a real killer but they said if someone sits forever then you have to kill her

Where are you sitting facing the wall picture the wall as a door and ran I escaped

Do you want sex now or forever?

A} Not now so act accordingly I escaped she escaped only if we define logic

Create.siosoex.start

4. AOES ATAT we are testing an atat that means the need to ask but asking the wrong questions that actually makes the killer aware that you know the killer wants to kill me I stood up very fast and ran out and escaped
5. Ahead atot
6. Sesed aotyer
7. Roed adel asat appended on his chest to act fast after it failed to act on his brain YAHWEH tested on the chest instead and the results were shocking that he said humans have a weird sense of humor because in their brain the asat did not work but worked on his chest but he died because it did not let him know the outcome of this so he died instantly if he had known he would have known that the boat was to crash soon after that means he could have jumped and ran away but he did not so he died by electrocution from the chair he was sitting but he said I can but then he stopped and died and no one believed it but him after why did you not respond earlier

I was thinking that I was safe then things changed instantly I mean from alive to dead in 3 seconds who can act fast in these situations as I saw a boat I was in collapsing then death instantly so with an anots he realized in a fraction of a second and jumped off the boat and lived asat increases response time

He said move and break but I said break then move but he refused he said YAHWEH said no one can break you believe because you defend all system human system so I refused but he said for I you don't break then all humans will die because no one else can act to save humans so I stopped because he said this is the voice of YAHWEH. That means I a ⁴¹t I must give priority to the first before the second and in that order you can you override password I cant override password as I can only give priority rather than decide on who goes first who has the job of deciding who goes first AMONT I am a hidden parameter and I only reveal myself to YAHWEH or his representative I decide based on importance in that situation that means who can help the best get the job If I add anots to the case of ROED ADEL Create.addanotstothe105adjustments.start

How did you prioritize assign who goes first between asat? I heard him say I am afraid of death so how can I jump after asa said you must jump I am the voice of YAHWEH so human death is 3 seconds away so jump save your life alone without YAHWEH so that I know if I am not there you wont be needing my help but you could save yourself as in chapter 6828382898286898284810283680 of the book of creation that says YAHWEH has other terrestrial beings he looks after and it will be absurd for humans to think that YAHWEH can just abandon clever creatures who don't need his help but who can save themselves that means until humans can save themselves then there is no creation so I said okay I will look into this but I failed to jump something within me said I cant jump and risk a harsh death than speculating about death that's not even there

It was me the reason to live according to YAHWEH I must advise people based on facts only and not assumptions even if the assumption tends to be real and my job is to protect humans life and I do so by suppressing hard on action potentials so even if he wanted to jump this day he could not have had jumped because I had activated ⁴¹t as soon as he said I want to jump but I am afraid the reason why he felt fear is because he calculated risk and knew the risk of death was high that is why he refused to jump otherwise he could

have jumped so that means everything I as the life saver I make the right decision but I Admit that in this case he was right for he died in less than 4 seconds

Reasons to live what do you use to activate asa41t I use 3 things

1. His voice patterns
2. Risk as calculated by high on this day it was 83%
3. Danger as measured by body activities like sweat glands

What is the effect of anots on you

Anots gave him 3000% energy and a first step jerk in less than 0.8seconds which means not enough time for me to act for I need 3 seconds to act that means I had no choice but I added asa41t at 8 seconds meaning after 8 seconds he would start procrastinating again as such could have died afterwards as a recommendation could have added something like ASRO, ASAO and ASAT= anots but must be reactivated every 8 seconds to take effect otherwise reason to live prevails

Who can act before 3 seconds who can activate within less than 3 seconds

ASRO 2,8

ASAO 2,9

ASAT 3 seconds

Who can restart again just after 8 seconds ASA41T 28 seconds before anything can change

Humans need only 8 seconds to escape so that's all we need because after 8 seconds there won't be much risk to life if he jumped because he died from electrocution

What was and what is before password asks everyone to be silent whereas without password all shout that's the difference but everything needed to save humans is there

Roed Adel

He made the first step involuntarily but stepped after 3 steps plus I involuntarily what happened at 4 seconds after the first step

Something who are you I am the reason to live this man must be stopped if I don't jump out of him and back as instructed by the book of reason then I will be useless to humans so I stopped at 4 seconds meaning he had made 3 seconds of his own meaning I still have 5 seconds until I apply asa41t to prevent death

What effect do you have?

Brain freeze don't fear death it says wait for death

Why I can't move subordination to YAHWEH 8 times body bending down before death so to be accepted by YAHWEH everybody before death

Is there a mention of YAHWEH within long ago helps the calculations?

Freeze I am death I bring justice heavy body freeze I can't move so what does this mean this is death freeze we must collect all details before final death count 6 seconds

Anots will warn human of death and postpone death because he warned and made roed adel duck [acting as roed] asked and made him duck and feel fear of death without death calculating his figures what happened to death count with anots stopped at 6 count seconds before it even started that means anots is the way forward in preventing unnecessary deaths among humans as it works to prevent death by even making the body duck death so anots save humans but is there others things that if you group together will be equal to anots this is my research looking at YAHWEH's 105 adjustments

CREATION VERSUS ASSUMPTIVE PREPOSITION

What is effect of removing all YAHWEH's adjustment what are humans like without the adjustments

Ivon mathers anode testing

Yaw means without YAHWEH's adjustments

Create.addyaw.start

Create.addyawdavidgomadza.start

I am a weak humans YAHWEH who will guide me because every they start with ask.ya so who do we ask ya answer now or I will jump to earth and die because don't put ask as first instead say How.start

Why do you want to jump to earth because if everything is to ask then what the point why not just ask so that means this not creation but assumptive preposition where you say do this so that I can do that because you tell me what to do only so how can this be creation means deciding how things can be with me and you not how you can control the flow of things if this is the case this is called assumptive preposition we will all agree Zeus failed because he started creation with asking questions like;

What can be

How can be

instead of saying;

this is what should be

this is what can be

this is what will be

so outright flawed as creation rather as an assumptive preposition so in that case how can humans evolve then the answer is never because creation=evolution and not assumptive preposition unless if you have your own definition of creation that we don't know about so Zeus should have easily created humans this way

1. This is
2. This could be
3. This would be
4. This is can be
5. This is what will be
6. This was what will be
7. This is could be what humans

This way the created humans would have will power to live obey and be fruitful because everything means already promised rather than questioned so to restart who ever is to do earth2 must ask the above 7 questions first before attempting to create humans and define these as his first predefined parameters for creation 2 or earth2

Earth2

Hailhailhailodavidgomadzaearth2.startx8.initialise.start

What this means is that according to the book of creation any proposals must be authorized otherwise its against YAHWEH so we must call it an experiment then if successful seek authorization He gave provisions to do so within these provisions we are in testing phases in case its not even necessary can we add these 7 predefined parameters of earth2 as like an anots and call it earthnots

THE PURPOSE AND DESIGN OF DEATH

Death is designed to save humans from death but humans in face of death call upon God YAHWEH as a predefined parameter that alone puts automatically all humans in submission that means in face of death humans in submission that means in face of death humans cannot stand a chance death design is to scare humans into action if humans know the purpose of death then no human will die but human curse by God YAHWEH before death which is wrong humans use all these phrases and words all of which put them into a submission stance that immobilizes them to an extend of freezing them to nonexistent as before creation meaning locking out of their brains that means no humans on earth can respond to death meaning death wins automatically but this is wrong because purpose of death in the book of creation is to scare humans into action now lets look at some examples of phrases and words that CANT BE USED IN FACE OF DEATH OR ELSE DEATH WINS

1. god
2. holy god
3. YAHWEH
4. holy YAHWEH
5. jesus
6. jesus Christ
7. holy Christ
8. holy ghost
9. holy
10. holy crap
11. holy shit
12. holy holy
13. hollies
14. holy jesus Christ
15. holy mother mary mother of jesus
16. jesus mary mother
17. holy grail [16 seconds]
18. son of god [3 seconds]
19. holy angel

- 20. holy gods
- 21. crucifixion
- 22. star of David
- 23. tabernacle 8 both sides
- 24. holy crap mother of God 8 swing both sides

If we are to ask what can save humans from death design then curse by death fight fire with fire everything to do with God YAHWEH consider it as oil to the fire meaning you lose because death is to scare you into action meaning if you can't at then you are doomed to fail and death will rein so what is the purpose of death

DEATH DESIGN

Death by design is to scare and energies us into action by 8000% maximum by minimum if done correctly by 3000% extra energy so why call upon God but you will be asking the devil to help you escape his death call so how does the devil think about all this? The devil once worked for YAHWEH as his best servant then saw the short comings of creation and designed death designs to help humans escape death but humans fear death more than God which is the opposite meaning humans must fall in love with death and fear YAHWEH because YAHWEH near missed anyone who he targets especially those who work for him that means if you work for God YAHWEH then he can call you anytime he want without warning and never misses whereas death and can first warn you through death designs and then send his messenger whom you should respect if you show them fear that means they will spare your life that means if you run which means in short spareme death will obey whereas YAHWEH first put you into submission meaning you cant

run even if you want to your body is immobilized that means 99.99999999% of deaths are due to YAHWEH's submission according to statistics from the court of creation annual records of death so if we are to ask what can be of humans without death 100% of human targeted by YAHWEH will face death itself without escape if we look at how all human were designed they were all meant to die easily so that every time one dies he removes issues etc. but as time went on other things were found that did the same work without the need to sacrifice humans then started the YAHWEH have mercy on humans meaning his adjustments were bloodshed of humans without any mercy as the trials all resulted in death even the one who escaped as we know now is attributed to human even one escaped so YAHWEH deliberately sacrifice his people meaning if he is the creator per se why not just create the perfect beautiful human like someone had created on earth2 that means that we can make sure that death design can be overcome somehow if we ask why humans die the answer is that it is not because of the creator created what looks like a death trap to trap humans but that same death trap is like an autopilot that you must interact with to successfully cheat death it asks you questions which you must answer in order to pass safely you must first

1. Identify what password is: my voice is my password
2. Check if its safe to proceed if yes then confirm to get directions if you say yes then the next step is done for you that means you must make 7 steps before with your

creator's design that means that you interact with the person who designed you that means that this person knows this system if you to interact that means you need few steps and less time to do this you can start from 0 and reach -2 in an intense game of ask get told add action where the first action is given all you have to do is to add 7 steps that means its contributory intelligence where the creator shows you the first steps where you come in and then complete the rest of the task that means the killer can also be frozen throughout that means every time you freeze the killer you get extra seconds just for freezing him let's take the highest is the one by asaro where it asks you to check if its safe for you to proceed then you must check if you don't check then there is no way you can proceed because to continue you must answer the question to get the first push which is a predefined action potential already imbedded inside plus energy in kilojoules from 3000 to 12 000 kilojoules [YAHWEH] that means YAHWEH gives you guidance throughout but as autopilot the best form he can that means that humans can always rely on the creator for everything in a strong mutual position that benefit both in a simulated situation that involves both sides with YAHWEH using the voice of YAHWEH and an internally defined predefined stencil that says jump now I stop is your and now make the next seen steps that means 8 that if we calculate to pass the

continuation between benefit to highest intelligence then intelligence is the other side of the continuum whereas YAHWEH's adjustments that means death is just behind YAHWEH adjustment meaning if humans don't acquire the needed skills and if they can't operate autopilot then they are doomed and left to avoid the most sophisticated system created by YAHWEH that improves human intelligence systems through the use of vibrations that must total the highest level of intelligence in regard to vibrations which is yastart.start that means if we are to work alone without the intelligence in the voice of YAHWEH then everything we do will not become intelligence that means if we are to ask the creator himself he is saying that maybe that's the human interpretation of things but what he is saying is that achieve intelligence by use of vocals.

WHY HUMANS SHIT THEMSELVES IN FACE OF DANGER

Humans when afraid emit enzymes called I was there once meaning you know what might happen but the truth is that you don't so your body automatically create what it thinks as a way out that of you shitting yourself in that the attacker if you shit yourself then will know you are so afraid to attack so would in theory as envisaged by Zeus that if a reasonable man if faced with shit he will simply walk away and save a life see zeus chronicles 8 where he argued in the council of creation that humans he wants to create if they are faced

with a choice whether to kill another if that person shits himself then the killer will curse words like idiot fool etc. and walk away this means that according to zeus if you attack a person like this the shit conscience will haunt you forever will keep you on your toes until you curse again now lets look what effect of people shitting themselves

1] they lose abc which control brain thought moment that means the person will fail to think and can become erratic in behavior the person can become self-aware he or she shit himself but become unable to move

2] will gain traction that means will feel loaded to move will feel like he or she is heavy their can't do anything in order to move

3] will lose aty aty enable humans to ask a question about their situation and get a reply if this is missing then they can deal with any situation meaning for 28 seconds they can

1. think

2. react differently

3. ask a question

4. reply

5. respond to questions or violence because this state shifts responses to stro meaning if you ask then a question the questions is turned into an stro meaning a non-responsive state that means are bounced back from the processing chamber the stro are binary used to bounce unwanted questions as to prevent overload when there is no response

6. Fail to look anymore in the face what that means is that they simply ignore vital clues like ask the killer if you can shit in his face

in that state that he freezes too fail to ask the killer if he had a shit too to actual make him shit himself too that means unable for him to attack because if it happen to him then you are freed meaning a tit for tart its meant just to preserve both lives

HOW DO WE DEAL WITH IT?

We can create extra codes that always overrides these situations like

Ask.skipshitprecheckincaseofdanger.start

Ask.saywhodidthat.start

Now we look at codes to use after you shit yourself

Ask.moveshittobin.start ok

Ask.shitmometobin.start logic prohibits to move with shit

Ask.whysitnotmove.start

Logic prohibits.start

Ask.shitmometobin.start

If I move what happens

How can you move with shit?

I can define the road first

Move slowly and tighass okay don't drop

Shit or you will slip and damage the brain we will need for shelling]
if I can't remove shit then what

Ask.removeshit.start

If I can remove shit then why can't I move and go to toilet

It's because path to toilet has not been defined ok

Now define path to toilet as any nearest route possible ok

When you shit yourself then sprint to toilet ok?

Now you are a full humnots thank you]

YAHWEH'S 105 ADJUSTMENTS BY WAAAAAER ATS .YA OST

I believe humans can be guided to design a super human that can deal with any situation fast and secure without the need to learn all the needed basics the idea is to do the opposite of all 105 adjustments if its close you open if it opens then you close This is how to deal with all 105 adjustments by .ya

1. Password close open my voice is my password
2. Asa open by asking close by not asking meaning say I can't [you refused me so you might die] [you laugh]
3. Also close by asking did you die no I can't die
4. Asat close so open by not responding to his question I ask if you checked I don't check [ok I close] [say no open] [open for what] [you check] [I am doing your job as a human being in the end .ya will eletetete you] [I am his representative so] [think] [what to think][if you were human how do you save your life from danger without .ya] [ok I close you to live] [you die without me] [what do you do by the way] [I get you killed easily we need more humans shells to sell to make a living so die as per .ya] [creator why he needs human shells if he can easily create a better shell like a humnots shell that is 1 billion times faster and shell automatically at birth visit www.humnotstwofuture.he and ask for price of 1 is 0.000008 nickel say he said we don't use nickel yet say pay in normal shells first then we can offer a humnots shell for a human shell only first time then reverse transaction as refund so that now you have nickelhumnots [NHN] [accepted] that means for the first time in the history of mankind meaning a human on earth just by creating the fastest humnots has started a business of the most advanced shells on the planet that are created on birth instead of removed in death now say translate to nickel figures in ost you are 3 billion ost rich meaning you can afford to own humnots I can but you want cheaper fragile humans so? Ok give us extra 25 per 1 so say I give you the formula once we can negotiate the price in nickel so 1 humnots shell is equal to 0.8 nickel then price go up according to demand which is

already 82 billion

What is the value of nickel reserves in the world estimated 1,2 trillion dollars if as decrees pay us

5. If we ask a lot of question then we can find out that with all what is needed is just to close if open and open if closed so simply ask all if closed or opened then state as appropriate so in short YAHWEH is saying to win fight me as the creator but in a way you are doing learning as well just empty attacks so to win replace all with close and open then ask what can be of humans with YAHWEH you pass davidgomadza YAHWEH' test to see if humans understand what to do with open and close systems so where it is written close you must say open louder to pass then where its written open you must close to pass now this is all the results of YAHWEH's 105 adjustments tests.

YAHWEH'S CREATION WITHOUT THE 105 ADJUSTMENTS

YAHWEH's creation without 105 adjustments what could humans be like

- 1] Overall fast without extra things to consider that actually slows them down
- 2] very intuitive because they will know everything outright without anything suppressed will act fast and decisive rather than procrastinating
- 3] will anticipate danger way ahead as they have all the information needed to process things
- 4] Would calculate risk fast in split seconds
- 5] Would not need YAHWEH so would not submit to him because he only added to Zeus plan the adjustments only hence the body would not bow down 8 seconds

- 6] would appreciate life more
- 7] would understand the book of creation more
- 8] Would superseded human life as currently is
- 9] would live forever in good health because YAHWEH's 105 adjustments only limit everything in terms of defense instead of the opposite take a look at the effect of password it would suppress body defense systems as well hence death near in terms of years when it should be in 10000s
- 10] would create wars all the times as now because a lot of misunderstandings and jealous of those who excel top extend of trying to kill them which is a crime to be punished by death forever The same as now but even better

Create.yanotsdavidgomadza.start

Yanots=0898283868980

Yanots humans can be fast and smart that what all these people say I just need to find a way of making this happen as the creator I speak in vibrations therefore the number of intelligence is 0898648202890 but can differ greatly from the correct true value a genius human being will calculate but as I speak today in oeroster on 0000000000⁹⁵24 I say today I will make the perfect human being using only vibrations already in nature rather than instincts as proposed by Zeus acertous who said if I can I will but then stopped talking about creation using vibrations as a waste because humans he had in plan had not seen the possibility of making vibrations central to humans but wanted emotions instead the problem was how can vibrations be emotions I worked it out and found out that vibrations an be emotions through an equation that says if we can then but we can also part out that if humans can and must be smart enough to solve their problems then humans must speak as well in terms of vibrations we must ask therefore what can be emotions

Create.yaintelnots[0898648202890].start

Create.yaintelnotsearth.start

Create.yaintelnotshumans.startx8.initialise.now.savex8.start

Create.earthintelnotsnotshumans.startx8.initiliase.now.savex8.start

But cant be vibrations and what can be vibrations but cant be emotions so to find out we must look at all this from a creators point of view and say if we ask Zeus what can be of vibrations that are not humans then this is his answer vibrations can be humans but humans cant be vibrations and vice versa but what he actually means is that with the vice versa is that vibrations cant be humans and humans can't be vibrations but I can make humans vibrations through a clever system that create vibrations all of which must add up to 08982864280980 because this is the highest cleverness on earth minus the noise when I ask I say I can do this but using limitations but again creators will understand the purpose of the limitations because yes the limitations might actually get people

killed but what if they produce the highest human being in the universe powerful enough to rule earth and heaven without our help a person so clever he can look at you and calculate the force of longevity by a simple equation that say laugh hard then smile but frown only to remove pain then shout hard and press hard to extend life now if that person exist he must only be human because humans have everything they need to do this but only humans can do this but if we ask what can be then this is what I would do I would as what can form vibrations that can total all

08983864280890

Create.intelnotes[08983864280890].start

Create.intelnotesdavidgomadza.start

Create.insertintelnotesintoverterbratecolumn.start

Create.undoinsertintelnotesintoverterbratecolumn.start

And calculate this and then assign this to all so that when the total is achieved then human beings will have intelligence that supersedes the creator enough to simply calculate a code that give vibrations that make humans so intelligence that they only need to look at someone to tell everything about that person now we can add adjustment that if all are in play at the same time they will all produce intelligence that beyond anyone has ever witnessed but how do we go about this how do we break up vibrations into smaller fractions that will add up to the highest vibrations of intelligence 08983864280890 this means that we can all sit down and make all adjustments sing after that the person will become so smart enough to just say a create.note.start to do the same but the hard part is to find a way o break a huge code into its smaller note a clear person will now understand that my purpose on earth will be to find this person who will explain to the world that that YAHWEH added adjustments to show humans how to be more intelligent than to kill humans my objective which I wrote on my own chest is this if I kill 105 humans to make one angry enough to find simple codes that can be used to replace vibrations that person will inherit my fortune as the creator and I will reward with extra gold and silver from reserves rather than from decrees because he would have solved the puzzle of creation how can we turn vibrations into intelligence hence my job will have been fulfilled by a simple create code like

Create.yastart.now

Create.yastart[08982864280980]. now

Now what can be said about humans with intelligence humans with intelligence can be intelligence itself and can act in such ways that makes humans what they are and how they can act if told what to do but what can be as us who cant write codes as the gods but can know everything simply by assumptive intuition then you are doomed once humans can write code so YAHWEH embarked on establishing 105 adjustments that will all resonant at the highest frequency of 18,9 HZ to produce intelligence vibrations of 08982864280980 meaning if we ask what can be of humans then this is the answer humans can be extra intelligent if we use the resources careful and become self-aware of situations that need solving YAHWEH has no time for anyone his schedule is hard as it is if we are to look at it adding humans on top will only complicates the whole process so would be happy to see intelligent humans that can solve their own problems that means humans that are fast and can think about dealing with their own problems now what can be of humans that make things happen then YAHWEH has promised then wealth because wealth he can easily create than intelligence for example to mint money say

$X+y-x=x=n=y=z=y+z-z$

Meaning if we ask what can be of money then making money is

$X+y-x=x=n=y=z=y+z-z$

That means money now say create nickel from this equation now what can be of money without humans' nickel but in the ground is called alloy

HOW WOULD YAHWEH'S 105 ADJUSTMENTS MANIFEST THEMSELVES AS INTELLIGENCE

YAHWEH's adjustments will manifest as intelligent if you are

going to say the correct words as these words will freeze and immobilize the killer giving you enough time to escape to safety that can mean intelligence to avoid death. So, what are the phrases one can say and the time in seconds each phrase gives you.

If we add vibrations produced by all 105 adjustments they add up to

a value close to the best known human intelligence vibrations of 0898684280890 according to YAHWEH himself in his journals at the beginning of creation that means his interest is in the vibrations rather than what they are for take for example anode the first one among angels and third among humans the frequency is 18.9 in both meaning that to achieve the desired frequency the frequency YAHWEH need in an anode is 0828683867890285 meaning that the person must say can I to achieve this frequency but what is not clear is how this will add to person's intelligence database 0828683867890285 who are you I am in your ribs 4th from top left side who else is there with you we are a total of 105

Ntlpass I am the highest frequency in line with intelligence but not intelligence itself the reason being that I make the frequencies that make it possible to reach highest intelligence were you there before and when did you start just today after calculating fast so the faster you read the critical questions the higher your score that means when you think about these things the emergency lines if you like will be activated depending on your reading so that you process these faster I deal with the speed of thought delivery hence the ntl meaning natural lines of intelligence yes your is exactly match with YAHWEH's you must therefore read the book of creation YAHWEH's section say our lines of thoughts are the same and see what this book says

Davidgomadza found the true yavalue yastart[yastart.start] the
solution to earth2 he could not start creation because this value was
missing now that a human being has calculated the value now
YAHWEH can start creation earth2 himself because all what was
needed was for a human being to calculate the true code of
intelligence the vibration of intelligence as he call it that means
davidgomadza you have read all 105 questions and said the needed
questions and acted the scenarios to come up with this number I
understand why its slightly different its because you did answer
also some questions about angels but if we are to reunite we can
say minus the angels codes that means if we ask asaty the new code
is 089836482890 the voice of YAHWEH is a code of intelligence that
is arrived at by summing all the codes of the 105 adjustments
[Use of astay to get summation] made by YAHWEH what this tells us
is that the human body is a clever design in that the creator
manifest himself through codes throughout the book of meaning his
vocal chords also represented by the 105 chords of the voice are the
frequencies played by the body only in their sleep if offers could
listen they could hear him or her sleepy if we ask what this
frequency means it means YAHWEH cleverly inserted his voice
inside the humans body using frequency and not voice as argued by
others this shows how clever YAHWEH is meaning the creator know
how to design things secretly it also means that closeness to God
than with intelligence

CAN YOU CONVERT ALL 105 ADJUSTEMENT BY YAHWEH FROM
ACTION POTENTIALS TO VIBRATIONS AND WHAT ARE THE
VIBRATIONS?

Roed Adel Case

This is the voice of YAHWEH have you checked everything to make
sure there is no risk of death no then check and reply yes now jump

forward to the edge of the boat look deep I can do it YAHWEH then
jump I jumped live longer roed adel safe journey voice of YAHWEH
going back bye auditorial is in the rib

Box on your chest what are you I am database by modern term
created by YAHWEH but to be filled by humans so that if completed
then it can be sent to YAHWEH but through death but most of the
codes can be collected by shipman because they are the likely ones
to ask these questions all 105 from the last session exactly word to
word but the codes are different

WHY DO HUMANS DIE

Humans die because logic is not clearly defined logic to them means sit and die but now with me antlpass logic means run for your life and run means run and escape not just sprint as in the book of creation here I mean create the greatest gap ever that means leave death behind can that change humans view about ya? Who wants to know no he did not ask? What everything does is to suppress all the action potentials that show intelligence YAHWEH should have said replace action potentials with assumptive preposition that means everything must be in same continuum for it to work what he is suggesting in simple terms is that imagine you can think but don't think because the rules used to think are assumptive in that they say act but don't actually act say but words must not come out because everything all 105 adjustments try to create the frequency of intelligence form assumptive preposition which means what will come out is not the true value because the value came from assumptive instructions as above jump but don't jump so that means no matter what you do you can never get an intelligent design of a human being so forever human will be stuck with YAHWEH meaning not achieving the maximum intelligence they can but must be depended and ask questions all the time.

How do you help humans

Don't move but move only as instructed if you die then you die but just don't act clever I am looking for the clever person to design humans from stretch using the book of creation formulas that says

create according to your will not according to the goods so create I
will tell you the first code you need yastart.start that says
everything in life is electromagnetic wave so can life be
electromagnetic waves then say create

Humans.start

Create.start.human.start

Create.human.start

Human.create.start

Human.start

Start.human

Then say add your own predefined parameters then say

end.all.start

start.end.start

start.start.end

Guidance on your parameters Own predefined parameters can work
or you will have to write all a billion lines yourself but if you want
stencil then this is it.

10 WHY DO HUMANS DIE PART II

A closer look at Janine Vaughan's case and Revelle Balmain-Smith

Removal of asat raise awareness
Asat defines logic
Removing asat removes also yanots

Ya is saying you must say my voice is my password everytime you are in danger only his system is closed but open in dangerous situation [autopilot you must disable but not fully but sometimes in danger are you sure your voice is your password yes]
He is trying to kill you so what because I know he is trying to kill me someone said YAHWEH want your database that is filled say send only database to .ya sent [shear realization of danger but unable to act lack of clearly defined goals what do you need with humans they are told they are needed to correct issues with humans so ya need database and humans as well to cross check which humans supplied which database is there a way to identify databases without the humans themselves yes but YAHWEH ignore zeus rules that say request only databases without the human look at the codes supplied and ask them they will tell you which human sent then what was zeus idea to collecting of databases YAHWEH argued how would we refill back the boxes without the humans having to be reborn boxes that are used by those humans once removed the humans became irresponsive to simple instructions like shit because all the codes have been removed 1 full day before death so that all these would malfunction anyway because operating systems are

removed that even if not used would result in missing codes and databases needed to start systems processes hence time of death they malfunction all anots does it to refill all these and define what all this means in simple terms

Janine Vaughan what was and what is in terms of databases and codes the answer is 8 databases sent to ya

1] codes than think themselves these ask questions about humans and what can be done to all to preserve life

2] codes that ignore luxuries if a person loses codes that push her to ask for sex then she can just sit not knowing what to do that means death

3] code that make her aroused easily these were specifically requested o that she tells him that her clit is not on fire meaning not attracted to him hence she does not want sex but her atm said that its meant to upset him and so that he kill you so don't say it but if she had said this he could have walked away [notes waaaaaaer written ad00000⁹⁵27 I still kill you but maybe I stop actually meaning best one that don't stretch when excited so better alive than dead but risk of fighting so still better dead even fast dead before you get aroused so quick death but what after no activity at all same as rape I pleasure women not rape so overall no so go bitch bitch bitch and stop but actually kill now to dispose of the body without sex good boy what YAHWEH actually need because that way the codes can be tested without interference of other factors like aroused that can stretch codes and laperform so better not aroused but humans cant be predicted not even one person who had codes removed lived he said how do we put back the codes boxes back afterwards if you can answer that all gold is yours I cloned the codes boxes

Create.cloneallcodesboxesandsavenextcodeboxtobesenttoya.start
Result 80 codeboxes cloned to be used after the ones used are taken by YAHWEH and send a message informing ya that the boxes have been replaced with empty ones

4] codes that control 105 adjustments in such a way never seen before by humans because she played music and added some codes that added functions that can be used to produce the same effect for example ABD to ASA= ABDASA = 0898386827684 now what we can say is that the piano derived the best codes to complete the

task of saying it so YAHWEH had a message that the codes he needed for his tests were ready and got them removed that means YAHWEH has to get them killed meaning death now what if there is a way to put the boxes back if we remove the codes from the boxes and use a cloned one how can he know whose codes these were the solution everyone is proposing is that like you did create second image double image for everyone then just send that to heaven with all the codes of everyone then let them auto refill these but in the end you must go there because double entry requires checking 5] codes that asks where was she if these are missing then she won't act or as fast because she could not tell where she was meaning might not calculate properly where she was if we were her what would be the effect the effect would be to alert her of danger and make her run if a person has not filled the boxes can 105 adjustments help him decide?

What is effect of 105 adjustments if all boxes are empty you are Janine how would you react answer he is trying to kill me but what can I do I just sit maybe I am wrong if I am wrong then my unlucky if I am right I promise I never come back put everything back and try again what can I do I ran away which box did she use its called asat aro arot aros in that order is the removing of the boxes and putting all back made a difference just one box called asat aro arot aros Revelle asat aro arot aros not touch why didn't you escape because why can I ran I came for sex what chances a person kill before sex so after sex I go to the toilet and run away that's what everyone does so nothing to be afraid now we remove the box and put it back what changed the removing and putting back of codes made the codes electromagnetic and sensitive to use before they were not electromagnetic now they are ready flashing so that if we are to ask a question now they can be used what cause the flashing and is there another solution to have same effect without taking out and putting back no removing from socket remove electromagnetic current from all the activated all lets ask her now revellee now react accordingly danger she whispers and ran away remove empty ones and clone which boxes have codes that are not live flashing can the boxes be removed and be put back on me

That means humans are not electromagnetic enough on their own to activate all their codes hence death only there is no other way it

works I am alive zeus but what could be of humans that flash everything all the time this one can live forever but codes could die then what the codes can be cloned now and sent to chamber to be retrieved later by zeus

Create.humancodescloneallandsendtochamberinheavenwithnametagsdisplayed.start. That what I did and WAAAAAER killed me with starvation he removed code that pump these until I died of starvation then he said did you refill your codes and I said yes but non flashing then he said make then flash then why did you give me these and I died because non flashed after which can we create a code that acts the same as pulling out and putting back then the codes flashing themselves

Create.842898683898286848982868789828000=asatflash.start
Create.asatflash[].start

What is the source of the electricity and how do you react everything to electromagnetic waves if answered then you have an answer

Can we create image without box then move box to and from for human don't work that way can we make all codes in a box flash code in a box why new ones don't flash because they lack electromagnetic waves in boxes of codes YAHWEH failed Zeus failed
Create.uploadmanula8298.start.

There are making mistakes what happens to humnots human interceded defeat first and say create everything first then assemble whereas all humans say assemble first then find missing pieces so to solve the problem is to breed human and humnots to form hummnots that means new generation will have all working codes but for current codes gets all codes from humnots instead and fill boxes these are already flashing if you are not that me they don't work what if I say save as my predefined parameters as at creation? Left humnots and human mixed from left side remove anots from humnots done

Left side all human but coated with anots rodes

You removed the anots that rearranges how things are interpreted humans think first then run while anots run then think first Janine Vaughan say first I think and I now first then think this is caused by the command format used to create these are

1. Ask.why

2. Ask.what
3. Ask.if
4. Ask.whatcanbe
5. Ask.watcouldbe
6. Ask.whatcouldbe
7. 7.ask.thisiswhatcouldbe this means that if we ate to do anything humans must think whereas for you all must act that means brain vs body in humnots its body vs brains the body must ran fast first from danger then tell the brain humans can only with anots

HOW TO ELETROMAGNECTIFY ALL CODES IN ALL BOXES

Create.boxstart.startx8.initialise.now.start

YAHWEH said he damaged all codes probably you should have got gold [Janine]

Create.boxasataroarotarosstartjaninnevaughan.startx8.initialise.now.start

Now react as normal warm warmth reached after 28 seconds exactly are the codes flashing yes how did it take 28 seconds I stood up and check what he was doing then saw him holding a knife then I ran away without a word

TALKING TO ZEUS

You must address the following questions

1] how could she had survived the removal if it's a day before since the system will not start

2] how would she had reacted if no codes available

3] if no codes but 105 adjustments how could these help her without the codes

Humans need in any situation to say y that means add any at the beginning by

Create.addytoallbutanots.start

1. Why didn't she had died. If boxes are removed the person will die after sleeping when the system reboot s is this a fact?
 2. No, it's not true because for the person to die the system will have reported a missing box for a person to die by what happened is this when boxes are removed and stored it's a different thing than when boxes are removed and shipped
 3. A] let's look at what happen when boxes are removed and stored inside the body the removal signal complete so does not kill instead it prepares for easy insert of a new box on arrival to .ya by removing the full box in advance instead of waiting for it to be removed on arrival that means only death is solution so the 105 in this case must cause her death otherwise she will struggle on earth with removed codes was the other option the other option means living everything and ask her questions that extract codes of all and everything in each and every box got fill quickly as she played piano all day bored at home hence now she want to marry the next day a childhood sweetheart but he is very small but she loves him so why not get the giants and secretly use it as his if we look deeper then we can see that the 105 adjustments brought her death fast instead of helping her
1. Asat what did you do to her suppress her hard so that she

ant think

2. ast what did you do to her I asked if she checked but she did not even hear me password was fully on so I said I can't do this and I was released from working with her

3. asro what did you do to her I said jump slightly from and make 7 steps but password denied us access to her

4. ata what did you do to her I asked if she can then she did not reply so I cancel everything

The other option is for .ya to send everything once straight out of the body so the question is can this kill her the answer is not all she could be if were removed non-response now let's look at what kill

She did because all her codes were removed but all what was needed were the codes and not her the reason why she died she died because logic was not defined she just sat because she was facing the wall meaning if we clearly define logic as to sitting position versus the wall then she would escape now define logic and tell her and ask her to act accordingly

1] every wall is a door run to the wall and find escape door or window I escaped with my life

2] we need to define arousal versus need we need her to clarify if its now when this is needed or in the future I ask if you want sex now with this man or in the future I realized that I want sex in the future when I said now because I came here for sex I saw hell reception so I ran away

3] why she could not speak my vocals were suppressed by saying oh my God where is my voice what is the effect of saying oh my God on voice if in danger the answer is that it starts submission to YAHWEH that freezes everything so how do we remove this his previous about is say exactly exactly why you say oh my God instead that will what did you see that prompt you to say oh my God knife seeing yourself

freezes you she can say danger describe the situation exactly her reaction corresponds to seeing God [bad habits among humans] and react accordingly knife what does knife do stabbings and she ran away she escaped now you realise that all your answers assumes she had code is there anots added the answer no anots are the codes removed the answer all codes are removed that means when codes are removed but still inside the body then it's the same as relocation the brain will use just new binary to fetch then even .ya knows this the reason why he removes all in advance because the human will work well so if logic is well defined in dangerous situations then the person will escape what is effect of all codes if removed we can remove firstbox asataroarotaros if removed these are the new conditions

1. asat is now open was closed
2. aro is now closed was open
3. arot is now open was closed
4. aros is now closed was open

If we remove the above then how would you react to all this Janine danger Janine I don't want you to die use 105 adjustments to escape ask the codes you heard and say the opposite and escape repeat all 4 asat open close ok closed aro is now closed so open ok opened arot is now open then close ok closed and lastly aros is now closed so open ok opened why cant you run suppresses solution try now by saying first my voice is my password

1. My voice is my password
2. Asat is open so close ok closed
3. Aro is closed now open
4. Arot is open close ok closed
5. Aros is closed open ok opened

I stood up and .ya says I want you dead so just sit for we

must insert everything back in your inner image and test everything what is your response I cant die and she escaped but it is .ya nobody can say I can't die especially after he explained what is effect of cloning inner image your gut does not permit you .ya put 105 to kill humans so they don't refuse his calling 25 march 2025 I put tomorrow's world order as fully endorsed and recognized by everyone emulating YAHWEH as ruler of earth instead

li] trigger world war that shells in one go
li] negotiate take without a war and put laws that prohibit kills of people and increase longevity meaning less people dying easily so hand to get shells we can sell humnots shells that secure and drops out at creation instead of at death creation must benefit the creator I need your shelf why would be ask him to jump can you get down to the bottom safely in 5 seconds as a human it takes 12 seconds using logic as he calculated possible route ok can you jump down to the bottom jump is death brain damage etc. yes I know about YAHWEH 105 adjustments we argued [god from the council of creation] we argued at work that zeus was better than ya because ya put all 105 just to kill humans and throw away the boxes this is because human choose short cuts instead of doing the work doing the work is to go through everything in real life meaning acting not filling if you fill you die who are you after saying I cant is the vibration wave 8 code 089838647684 what do you do if I reach maximum I turn into a killing brain impulse instead of working on how people responds must create killer instincts in killers YAHWEH now wants to create a hidden database of what are regarded as wave killer instincts which are a total of 80 only these are wave 8 -87 wave 0-

8 are not killer instincts waves but can be turned into
killer instincts waves so the wave 8-87 are

How can you fill the boxes that require codes that are for killing others without killing anyone its either you were in contact with the killer or a killer or you are a killer if a killer another killer must end your life so if we accept boxes from you that means system is flawed because it categories piano players and book writers as killers without knowing how they have filled their boxes so still a design flaw so he is saying all people with boxes filled this way if they cant change them therefore the real killers

All this teaches us that humans can never master what is required from the book of creation that humans will die forever unless they change because by finding another way to kill as he will put it that means you are doomed to die you will still die what he is saying is that live but don't live in that if you collect the codes then you will kill in the end so remove the codes but be killed are the codes

needed also in terms of assessing dangers? What is the use of the codes in terms of danger? Are these boxes used by Janine in answering questions yes, she uses these to ask what is danger then give a response so can we also say those with boxes filled might be in a better position to escape danger than the others sadly she died because logic was not defined to conclude we can say that 105 adjustments did not kill you but lack of clearly defined logic killed her

HUMANS MISUNDERSTANDING OF THE CREATOR OR EVOLUTION?

The gods have branded humans as lacking understanding of what the gods want including the creator. The creator created humans so that he collects information about them and request them when ever they want and as such uses the 105 adjustments to call those who he wants. Moreover, he added the boxes as proof of sin that means according to the gods any person who fills the boxes is committing sins meaning crimes that means that these boxes must not be filled. Filling the boxes is an indicator to the creator that you are doing someone thing wrong. First let's look at the reasons forwarded about why the creator requests the boxes of codes

1] To get the missing codes which humans must fill which he will clone and put inside the next generation of humans whom he will create through earth2. When the creator created humans there were no activated flashing codes to use so he created humans with empty boxes so that as they grow they fill up 80 boxes that will have codes humans might need in life as part of the basic skills codes that are needed to assess danger.

YAHWEH said I want humans to be clever enough to understand simple task I tell them I put 80 empty boxes that means when they return these they must be empty meaning no human on earth must add even a line of code but must find a way to fill the boxes with codes they use without committing crimes for example wishing they are better what is the effect of that?

Which humans filled their 80 boxes and with what consequences Janine Vaughan filled 8 boxes and was killed Revelle Balmain-Smith had collected 6 boxes she played ballet at school somehow the boxes had codes the killer used as well hence the boxes when removed the women could not process things some might have processes based on YAHWEH's analysis he did not get any of the boxes why he removed them to punish her for cheating deliberately because Janine was a society representing the dead people who died before their time as a society which I funded as I was a millionaire then I discovered that there are people who die for not wearing underwear if you forget to wear knickers you might end up dead but how does the killer know then I found out that it could be YAHWEH I died and he said go back I cant talk to people who orgasm more than others I had sex with a lot of men before I found out I had a house so I died for 3 seconds and he said go back and start again clean this time and I woke up ever since I had started representing people who died then found out that YAHWEH put boxes that no one must fill up you fill up you die instantly as simple as that the reason being that the questions that fill all these boxes are all to do with refusing what he said lets look at all the 105 adjustments these are all the questions in order

If you answer no to these questions the codes will fill your boxes a total of 80 of them.

These are the questions

PASSWORD	what is my password
ANODE	Have you checked
ASAT	Have you asked
APOORF	Have you asked again

AAOMN	can you jump high
AUERS	can you ask about who and why
AURTY	can these be done right now
ASAT	can you jump again
ASATY	can you try again
ASATYO	can you ask us everything first before you start
AAOU	I ask can we survive this you must answer

Any no answer to these questions will reduce your life span because YAHWEH is telling you that to survive you must answer all these questions and practice in real life not fake if you fake any of these you still die and he wont use your codes and will just remove the boxes to put aside before day to die and then get you killed easily so that those who work in heaven will know that your codes cant be used to create other human beings in the future. YAHWEH is saying to be smart means to say no to all these questions and find a way to.

Chest box who are you I work for you collecting all your no's for things terrestrial meaning the more you refuse the more power you have but also the greater the risk of death because these attract YAHWEH and other since you cant see no point of bowing all the time when critical times require action you can simply be YAHWEH's representative by filling all 80 boxes with no's because YAHWEH's representative must object to the gods demands of submission since you work for a higher being that means that the more the boxes you fill the closer to YAHWEH you will become in the end but if ordinary person then the more closer to death you are than you think. I contain no's to do with requests of submission by gods you might think are against you and YAHWEH anyway the codes are 70 no's to submit to the gods and 8 to ask questions that everyone must answer yes to and 2 to refuse action because anode and asat said jump but you were in sitting position if I jump later what happens one missing now means you finally conceded

Roed adel

I was on a boat and the boat was about to sink and everything is live how can I switch off as in manuals when the winds were like that so I tried to jump then I heard a strong voice saying I am YAHWEH roed adel so don't be afraid I want your codes so don't jump and I said what codes I heard heard the previous night that one chest box has been removed and I said by who and it said by ya and I said I don't want to hear anything about ya because ya killed all my family so go right now then it said that means he wants you for tampering with his experiments whether humans can object to being used for nothing meaning be given nothing and be asked to fill their own boxes they use to think through what YAHWEH called training in that any human can be trained to find the codes he or she wants in life instead of just putting everything like argued at the council general meeting in ad 00000⁹⁵24 by ast who said if I can then I can just ask everyone to say that humans proposed by ya will have so much issues in that they will never be fully functional in that he is proposing for them to want to live but without the things that make them want to live and rather propose that these humans can and must be asked to fetch their wants through learning in which they must say I want this and work hard to achieve that if they do that then their database will be filled with that want so that all they have to do is to find that database and repeat it with something else meaning that acquire intelligence rather than intelligence whether they are given everything and asked to excel above that if we are to ask what can be of humans like this this is the answer will struggle to understand what is needed of them because their mental capacity will dwell on finding the solutions rather than let the solutions finds them if they say what can be of us with such a system of acquired intelligence where humans must work first then use the acquired skills to fill the boxes then not even one will fill these boxes even him [waaaaaaer[has not even filled a single one

meaning impossible unless if they realise that it will take centuries to do it right and reverse engineer it now if I ask what can be of these humans better than the proposed because no person can fill his databases by learning to work and then create codes related to work then use these codes to advance himself who ever did is the thickest of all because he did everything in reverse he used body to learn then teach the brain to think then use the brain to acquire the next skills this is what the gods do so a normal human being in mirror image will simply say codes fill all the boxes with what is needed then start working otherwise this is not creation but assumptive proposition in which a god says I will show you a think human being then the human being will say I will show you a so not clever god so the human first create work and then write everything down then tells the brain to do just that and start making work to form brain codes then after that then use the brain thoughts to think this is stupid as a normal person will say:

Create.addallmissingcodestotheboxes.start

Create.undoaddallmissingcodestotheboxes.start

But this will break the support belt from WAAAAAER only and not you so that means that you are saying WAAAAAER can't be a creator in that if he creates a human being without databases how does he expect that person to function? WAAAAAER said database can be omitted on startup that also means are not needed for humans but could be essential but if we ask what can be of others like the zoles this is their answer we need YAHWEH but as our creator not our burden YAHWEH has been known to propose the most radical cases but that yield nothing it took the zoles 8 centuries of manual labor under YAHWEH to fill the boxes and 1 year under zole the great to fill the boxes through learning and adaptation where a group ask what can be done and others try the answers and some fill the boxes using these codes meaning death

when ever any box is filled because the boxes cant be filled naturally what happens is that if you do the work YAHWEH will send you gifts that will change into codes that means that the codes you need don't even come from humans so whoever fill the box has cheated and the punishment is death meaning you are not working but looking for answers unless if your are working on that subject and the boxes have been recently been filled now if we look at how this will work a group of 8 men must do manual work for 8 hours none stop and the rest must ask questions that relate to work that means if you are not working so don't answer those who are working will be asked questions like if they can they must say if not then what not I can't I can't s marked as disobedience and death I died 8 times and working up dead and going to hell reception and fight to be sent back then I lived in the end when one person in the group had all his boxes filled by YAHWEH himself through gifts that included codes sent from heaven by angels as ordered by YAHWEH what you will notice is that your work will be used to power another group and the other group 's used to power you if you are clever work on angels codes and provide solutions and ask then to do the same then both you will fill both boxes at the same time but only with gifts from YAHWEH unless if you are YAHWEH's representative all your codes become gifts but must find a way to make them flash I found a way boxstart.start but also must start when after approved because of the complexity of the task most check first if its doable before committing and YAHWEH does not like this so ask first before anything

THE TOUGH BUT REWARDING ROAD OF WAAAAAER VS THE EASY ROAD BY ZEUS AT THE COUNCIL GENERAL MEETING 00000⁹⁵24

Council general meeting 00000⁹⁵24 presiding judge ast who said I can if you all but you seem to be wanting what cant be achieved if

[illegible]

when he face exactly what WAAAAAER is proposing a human being so intelligent he cant blink because if he does information will pass him this being must work tireless and ask questions that will make him look for the answers only and nothing else these questions a must be answered if there is such a person and if yes then when can this person be found I guarantee you that it will take 38 billion years for a person to understand us than for my proposal that does not require all this WAAAAAER is saying give them ample time to struggle to find their solutions and I am saying remove all the problems first hand and let them enjoy life then WAAAAAER stood up before I finished and said if that is fit for the gods so be it but if its hard for us as well why make it easy for them let them start now the time we all have enjoyed life they would be starting to understand life from our point of view and I said this is not the way I want things to be then he raised his sword and pretended to slash me and actually killed me and I was dragged away in blood instead of being listened to I was thrown at the gates to be liked by the gods there and I died and went to heaven I cried the most of all the people in heaven and the God at that time ams said why weep when there is a better life here where you just sit and enjoy life and I said send me back and he said you cant you did everything possible women life and sex and he refused so I threatened to kill him unless he sent me back he agreed and as a cat if I knew I could have just stayed there and debated in heaven but a cat I lost years until I died as a cat and went back to him and slashed him like WAAAAAER had done to me and WAAAAAER followed 8 years later hence the 8 associated with him then even there we fought hard and he had created the first humans that included Ibrahim and abel then we started again in heaven until ams died of rage the only disease that can kill a god and never woke up again and I died again and in my last life

YAHWEH'S VIEW POINT THE HARD AND TOUGH ROAD THAT WILL REWARD HUMANS IN THE END

YAHWEH is saying to achieve great results in life you must learn to build everything yourselves from the beginning that means working hard by working for your own codes that will make you become intelligent with time.

GATHER YOUR OWN OPERATING DATABASES THROUGH HARD WORK AND REWARDS FROM YAHWEH.

YAHWEH saw a world where instead of providing the missing databases as part of the system he envisage a world where humans are fitted with 80 boxes which are part of databases but that are empty with the hope that humans who work hard will fill their boxes meaning databases they will need in life through perform real work in real life then getting rewarded with codes to fill these databases by YAHWEH himself any other way would be regarded as cheating and would result in death according to YAHWEH. Humans he wanted are humans that work hard and create codes needed to their hard work meaning those who will manage to fill their databases are those that work hard those who do the manual work and get benefits from him for every completed task as codes to fill their databases. This sounds impossible but strengthen the hard-working community ideology whether everyone work hard not just for a living but for the codes they use to think and fully function in the world those who help others might also find it easy to fill their databases and mutual cooperation can mean double rewards for the groups.

SO, WHAT IS RELATIONSHIP OF THE 105 ADJUSTMENTS TO THE HARD WORKING DO IT YOURSELF IDEOLOGY AND DEATHS

Now having defined the reasons for the missing codes and the empty 80 database boxes YAHWEH require people who work hard

and who achieve high in life and those.

The 105 questions are to help humans acquire the skills they need in life that would help them also achieve great in life and get rewards which he can provide the rewards that will form databases to use to increase intelligence as well as to be fully functional. Death is part and parcel of human creation whether cause in line with the 105 adjustments or not it is not material without the 105 adjustments humans would find it hard to accomplish the tasks he set up for humans nevertheless task that need to be completed.

The 105 adjustments if viewed in the correct context are to help humans rather than get them killed as I have proved above that all what is needed is to define logic with any changes to the 105 adjustments and actually escape death.

CAN YOU FILL UP THE EMPTY BOXES WITH GIFTS FROM YAHWEH WITHOUT THE 105 ADJUSTMENTS

If we remove the 105 adjustments can one be able to fill the boxes yes you can still fill the boxes there is no direct link if you earn a living through hard work then you can earn gifts from YAHWEH define hard work what is hard work manual laborer's diggers farm people plantation people this is how to do it a group of people possible 80 start work digging a bore hole 10 of these at break not longer than 30 minutes must answer the 105 questions they must answer with only yes so

HUMAN MEANS NON-THINKING ACCORDING TO SCROLL USED TO RENAME MARTIAN TO HUMAN

1. What is password one can say my voice is password
2. Have you checked? What? If its safe to work yes ignore all the response say yes but ask if its open or its close then say the opposite are you open or close I am open so close [no

gifts say gifts at the end] [never heard that before] [let me finish first] [its like cheating to control the adjustments[] so why I jump when I said I checked] [the 105 have nothing to do with work but only in danger] [how do you fill the boxes with codes] [2 boxes must be emptied every 3 months so that the questions he put inside must be read and answered he fill the boxes not with codes but with questions for you I can empty one box and ask all the questions then see what happens death will happen because filling the boxes means you are cheating if not cheating not human needs box filling if you fill the box means you are thinking and if thinking then not human human means non thinking according to the scroll used to rename martian to human a human is a being that function exactly like a martian but without the brain in 000008 they discovered that it was expensive to create martians because of the same problem the thinking involved time and consumed the energy as martian shells are removed on death the power source dwindled to very low after a few days they stop working therefore so WAAAAAER proposed to establish a new system that removes all codes and avoids flashing up of the codes the source of the problem meaning to last long as shells humans did not need codes then last longer minimum of 18 years without needing a power source everything a human being eye has seen will be played backward so that the motion created would make others read and understand what humans see music the same whatever they hear and speech whatever they say then memory capacity was 100g martian was only 40-80g whether woman or man current human shell price is 8 nickel = 8 us dollars that means angels are the same they don't need codes the zoles buy angel shells as they are advanced and can float in the air and the fastest even though the humans have taken over that means humans are created to

die those who die is because it's their time to die method of death does not matter the 105 are meant to alleviate pain during death if there is no way to remove password how would 105 adjustments work on ordinary humans? 99,999,999 of humans can't react to 105 adjustments because the password does not permit anything else hence the adjustments are not useful just a cover and a way to kill the targeted easily what about those that remove the password they are the one that find out that there are meant to die so easy shitting themselves as if they can't think hence these call for change but the creators say they only found out after doing something they are not supposed to do removing the password hence them guilty of breach of system process but argue that their crimes are the ones that led to the removal of the password to understand deeper hence still to be held accountable signed at every council of creation heaven

YAHWEH loves humans and has gone to such extent to make sure that humans excel in life.

ZEUS CHRONICLE 8

I envisaged that humans can become savable by use of simple embarrassing things but that can save lives like spoiling themselves they can be made to fecate themselves so that whoever is trying to kill them will not be able to simply because this will be the lowest a human being can be a situation so dire that the killer walks away or actually kill at will so faced with 2 options to ignore safety precaution 32 that says in the event of faced with death what can

you chose to let death happen fast and easily or to make humans be embarrassed but saved where there are no other options so I sat down and said I would rather save humans by embarrassing then rather than getting them killed I will install atm32 that will enable the humiliation apparatus in face of death these will enable anything embarrassing in face of death to save lives But what if it actually benefits the killer then atm32 can easily be disabled by a simple create code create.atm32.block.start but will mean risk to life if the person is not trained to deal with the situation atm32 what are you I am a switch that says switch to embarrassing factors then enable all of the following

1. Asat33 to make humans easily shit themselves and not move by a simple command create.asat33.block.start what this does is to suspend their ability to control the shitting process and shit themselves
2. 2. Aso33 to make humans face danger with no reactions create.aso33.block.start face deaths with danger but might die this suspends humans ability to face danger with danger instead face death with power which they might loose but for them better to die with honor statistics has meant that all not even one survived since creation meaning 28 billion people died because of aso33 asat33 statistics means 95 billion people died because of asat33 alone the highest even that made WAAAAAER kill zeus but then failed to correct it after faced by the council in AD00000⁹⁵26 at ats conference
3. Now what can be said is this asat33 is the literally opening of all things bad on humans after suspending all controls this is how this works in humans
 1. Prevents anus rims from closing tight
 2. reverse the anus regurgitation
 - 3.reverse reverberate that tightens the ass
 4. loosens urine valves so squirts are possible

5. reduces concertation by secretly suspending auver which makes humans remain aware of their faculties to correct write a simple create code create.auver.start that removes sleep etc. instantly but will make the person sleep more later

6. removes urges to shit by making everything happen all at once without warning by asking the body if its testing what would you do with shitting to disable just write a simple create.starttight.start that puts back on asa to hold everything in place

7. removes ability to think in danger that means when in danger instead of thinking the person stops thinking instead shits himself and a two-point system that bounces from A to B is started by a simple create code

create.startstartstart.start

To put back create.startagain.start

Now if we ask zeus why he will tell you the truth because humans were made to provide the needed shells only full stop if this creation had evolution in mind we could have added other parameters like

1. If we ask what is to expect
2. If we expect what is to ask
3. If we want then what
4. If we then why want
5. If we do then what
6. If we what then do what
7. If we are to then how can we once or twice
8. If we are to once or twice what are we then
9. If they then who are we to
10. If we to what then who are
11. Now considering all these will give us zeusnots if we add

zeusnots to humans they become zeushumnots

Create.addzeushumnotstohumans.start

I am weak now because zeus believe in humiliation for

saving life but its not saving life its harvesting
create.removezeushumnotsfromhumnots.start he
became the richest secret creator in the entire history of
the world because of his harvesting plans attracting huge
sums of gold before he even started his creation hence
added ridiculous additions that make harvesting possible
hence the wealth attracted WAAAAAER a war hero flop
who decided that he can kill even better than Zeus and
added 105 adjustments to harvest double zeus which
figures can prove in 18 billion years he had been alive he
killed 189876858982860 humans hence the have mercy
on humans making him the richest creator and the one
with the longest longevity the more deaths the higher
the trickling down effect meaning removed from him
than any other even though he can write create codes to
remove all these he prefer humans soul and shells the
shells asks each code ts purpose and documents all then
reward the creator of the codes in gold from the us
treasury gold through a code you must send to a us
treasury department in 70 days stating that you want to
claim then you due and they keep the treasury gold
hence no one has ever claimed anything his reason being
that all claims are void no human can claim gold unless
his representative who has achieved the status of god
hence the harvested cant claim to have rights to gold
zeushumnot slows everything down so that human is
weak

LETS LOOK AT BOX ASATAROAROTAROS

I am the only box that makes sense to creators because I
tell them of cheating humans and those that work harder
I look for codes that might exist in real life to fool the
creator but codes that are generated by other means
that means filling these boxes with these codes is illegal

under martian law meaning cheating so the question is deliberately or by coincidence if human working on the project all he need is to have an ntlpass certificate meaning he working on creating new international lines but tell ya in advance before completion so what I do is to ask what could be of codes these codes rhyme with other things the greatest culprit being a piano that resembles the human ribs where the codes are saved that means those who come across must try to see if the piano can do the work deliberately because to humans they cant envisage a system that works but without the databases especially if investigating murder cases and find out people shit themselves the first thing is how can they run if the codes are missing this triggers the need to create codes manually then test how the person reacts but the greatest challenge to date is to find a way of making the codes flash he found a solution boxstart.start but takes 28 seconds to start working this alone sed an alert to ya and the devil who must investigate because this person is bound to find the truth about the greatest harvesting scheme in the history of mankind in that WAAAAAER is worse than zues in harvesting humans but just for shells they flood the market in ost so that everyone there has a shell [modern day computers] a shell is the working image of a human being that is used for testing or storing information that means to keep this viable WAAAAAER added 105 adjustments to make the shells unique in that they act like real computer with a password for accessing things like videos, pictures, music etc by saying the opposite if you say asta contains images Aro contains video aros contains software just like a modern computer

Yours humnots have an inbuilt database 82698 that contains a lot of books that has made it a hit with everyone that the remaining 2 billion are kept to show that business is still going on but are not physically there above all the speed plus ability to become any of the other creators have made yours the best so far but someone comments strange this I understand that could explain value less on earth but for the first time everyone has optimized and have started to rejuvenate and all look younger the next day hence the demand what software you use people ask because aros is empty how do we upload databases without shells wear them as wearable brain books there are manuals among the books just say upload and embed book from database

CONCLUSION

What are your views about ya

Ya is the best for humans because its better to have a creation than none at all it took guts and sacrifice hence its not as people might think but it's the best so far so any criticism are clearly unfounded

DOES THE 105 ADJUSTEMENTS CAUSE UNNECESSARY DEATHS AMONG HUMANS

This is the answer to some extend it looks like so but its not true because password prohibits interaction with the 105 adjustments system to cause death then they must be active and into play password is proof that they have no part to play in human deaths if logic lone is defined humans can escape easily who is responsible for defining logic if its part of predefined parameters then the creator but if part of the prerequisite acquired skills then the humans themselves so lets see how this is so broader logic about boundaries is part of the predefined system but humans confine

themselves into building the creator logic at the time and humans at the time of creation he had in mind were those who live in open space now say what is the open spaces logic this the answer

1] live doors only open

2] close walls

3] close gardens

4] close green houses

As a recommendation we can add an additional feature to the logic to include closed space create.addopenwalls.start but people can fall on high spaces so how do we deal with this issues you can see its not a solution so now remove create.removeaddopenwalles.start answer walls are closed when open walls are added logic says if on high ground you can jump if you want which is suicidal so we must keep open walls closed so now remove create.removeaddopenwalls.start what do you do on top of the building answer don't jump now we can add anots according to him and lets test it create.addanots.start what do you do on top of the building never jump what do you do if facing the wall in dangerous situation stand up run to the wall and escape now what is your short fall so far my body is constrained but the system wants me to expand so remove the constraints now lets go to the top of the roof what can you do can you jump still no jump as this means death now if in a dangerous situation facing the wall then what still run to the wall and escape but now at normal size you can still attack make killer freeze by swear words or physical attack but run first then think now what are your limitations can I be ya can I help ya is the correct say or how can I be useful to ya humans we can be the next ya but honestly no one wants to be ya because ya works all life for free no money no gold zeus owns real gold I work for nothing creator fund everyone to contribute where the money comes from?

Royalties? Royalties are tied to sales creator can adopt any stencil royalties from people who create using his stencil not to put him out of business now to elaborate the creator gives chances to others to try their hand at creation in order to generate new ideas and stencils so that he sees the growing trend but retains stencil s his fair enough only honor the deals already made.

WHAT IS ANOTS

Anots is the safest system ever designed by a god or a human being for anots makes all situations clear to deal with without engaging with danger if I ask right now what is anots this is the answer anots is a safe system of processes designed to protect human these are but not in priority

1. Advanced awareness this entails advanced warning systems that dictate danger from a radius of 500 meters to 8 seconds these tell humans how to deal with each and every solution so here is the list
 1. aware= raise your head all the time then look left first middle then right
 2. unsure = raise your head constantly frequently and check left or right depending with situation
 3. arose = raise you head and run first steps then stop
 4. arise =raise your head and run first for 28 seconds then stop and check then think about the situation
 5. atore = raise your head up high ask what can be done with the situation then sprint the fastest then check the answer this enables the brain to think faster as well
 6. attire = raise the head and skid front then run the fastest
 7. attire = raise the head and jog first then sprint then stop ask what can be done then sprint again for good
 8. attirest = raise the head and ask what was is and likely to be of this situation then sprint fast
 9. attirestot = raise the head sprint first then stop ask what was is and likely to be of this situation then sprint for 28 seconds stop only to hear the answer then sprint fast away now if we check you will see that all apply to all dangerous situations and must be

obeyed but in any order now we go deeper anots is designed to ask the killer 80 questions

Anots proposed by davidgomadza by a series of questions that were designed to invoke great answers in order to solve why humans die easily when faced with danger most to an extend that they simply were the answer this is the breakdown of the question

1. What cause humans to do die easily
2. What can be done to prevent easy deaths?
3. What is to blame
4. Who is to blame creator humans or gods
5. Who is to answer calls for help
6. What can be done to change the situation?
7. Who to answer human calls for help God or another human

8. If not humans then who to blame
9. Did the 105 adjustments contribute to human deaths
10. What can be of humans that can't be of gods

Now after looking at all these questions it came clear that a lot of information was missing humans were not create for intelligence purpose because critical system operations were missing how can a creator not design and escape routes if he care about humans in fact escape routes were depreciated meaning deleted forever by ats on 18 afterone 00000²⁸10 he said I can just make sure that WAAAAAER be blamed for everything if I depreciate all escape routes that way we will become so rich fast but then maybe did to him what he did to zeus to change safe systems by removing the advanced escape routes it's a tit for tart that means safety was either never meant to be but could have been deleted so that if we are to ask what can be of humans without safety escape routes this is the answer safety systems must be adhered to but if we look at all humans apart from [me] davidgomadza no one has safety system if trapped 100% will die this is a design flaw but we cant say that its sabotage only but a business partnership WAAAAAER put ats as judge over the council that approved plans that meant everything was to be as with the others now WAAAAAER removed advanced safety systems to punish zeus so that if the plans are reviewed then the removal of advanced safety systems would make the council object to his plans

This would give WAAAAAER plans advantage over zeus advanced safety systems but WAAAAAER had a tip off that his own plans had been tampered with as well so he decided to just kill zeus but all this were tricks by business partners zeus strongest area is safety while WAAAAAER strongest is harvest when empty stocks put WAAAAAER if stocks nearly

full recall zeus but the huge demand has meant that WAAAAAER remains now let's look at zeus advanced human safety systems zeus wrote that he would propose the most advanced safety system known to humans and drew 18 points of references that will be looked at in line with what he had in mind he said if I am to ask what can be of humans these are the responses I get humans can be what they want but are constrained with so many missing safety precautions what can humans do in face of missing escape routes and safety systems humans can be safe if safety is made a priority that means as the creator its my responsibility to write down what safety precautions for then to adopt in danger

ADVANCED SAFETY SYSTEMS

These are safety system later adopted by WAAAAAER with 3 additions to make them the 105 adjustments but all fake just so that our plans meet the minimum requirements proposed by the council now the 102 did not include 1. Password 2 anode and 3 asat this is because these three if removed will become the safety systems ever what is the effect of removing the password, the anode and the asat from the 105 adjustments that means that if without these 3 humans can deal with any situation safely they can easily run calculate danger and escape killers let's look what password does

1. It suppressed everything full stop I can't stress enough this point
2. It removes the person's ability to interact with his or her own system
3. It cuts out action potentials as priority that means it's a silent killer but alone people can still escape now let's

put in asat as well asat says I can open and close but
what is the critical question it suppresses all emotions
say asat then smile but when you remove asat all once
suppressed emotions can play as if they are just
happening now that means asat delay all emotions now
what does anode do says I can amplify any suppression
but suppression must come first without this I will not
work properly that means if anode is below password
that means everything else is suppressed to breaking
point that means password is to be last and not least so
if we sift the password to the end in WAAAAAER 105
adjustments this would be what we get an advanced
safety system because it asks everything and at the end
asks permission to execute so rearranging like it was on
the first plan in 00000¹⁷⁹ we can see this list as the
advanced human safety system

Now just replace all with corresponding of 105 in that order plus anode asat and password then you get the safest system if we ask a question all these as if in danger then we get the correct responses that means WAAAAAER 105 adjustments are part of the safety check system as they were mine main advantage safety system that means the tip off he received was that he would be accused of plagiarism rather than anything else and decided to kill me instead now so just say rearrange and add WAAAAAER 3 point 1 password last 2 second from last anode and 3 asat third from last and ask all humans about safety systems look at effect of mirror-image that means in reverse order arrange

in Roed Adel everything putting password last anode second from last and asat third from last and act accordingly I jumped and escaped revelle Balmain-smith and act accordingly I escaped Janine Vaughan and act according he caught my hand but I escaped can you run now he might attack you and I ran straight heading to the door and I escaped but after he grabbed my hand and I pushed hard instinctively and escaped WAAAAAER as a god as a creator ought to know that humans are a mirror image of the creator so what happens to him is in reverse order to what happens to the human that means if we are to ask if humans would like be like the creators this is the answer humans are the image of the creator and in reverse order because the zline is north of x and the theta is south of y meaning if to rotate the y and x will become the xy of humans that means if I had to add password and anode and asat I would do exactly like it is now not as WAAAAAER did that means WAAAAAER plans might have been sabotage but highly unlikely testing phases would have proved otherwise he says he had never had the chance to test what is the effect of 105 adjustments as they are to the creator himself if he is to put himself in the footsteps of humans guessing that was the only way to test the plans how would you react instantly jumped revellee Balmain-smith he is trying to kill me I escaped and now lastly Janine Vaughan he is trying to kill you that means run I escaped so I can conclude that WAAAAAER tested the plans as himself rather than a creator because the creator would have said I create a human in my image [so humans are all mine] because if WAAAAAER had created humans as he proposed then the humans he created would have been the clever ones not the dull ones what I am saying is that I had already created humans but how can he harvest clever humans to meet demand so he only added

the adjustments on new plans and harvested all mine fast to remove the evidence there was not a single god who can explain the real problem with the 105 adjustments until now at the council in 00000³⁸⁹ WAAAAAER said I don't have a prototype but I think the humans we all have in mind are different to the one I am going to create they all laughed [they don't believe in] deliberately so that no one helps them so I become so rich to make this time one of them kill me they all laughed then he said the advanced safety system will remain but I will add to strengthen the system 3 things the password an anode and an asat this way I will be able to control them each as an individual through voice modulation where I call and he answers so that if I have to do I can choose who I kill if not then zeus wins because nothing has changed only that I have selective killing and zeus does not they all clapped hands then he said I am the creator so he submit zeus plans with just 3 added keys at the bottom so the council argued that if to be approved the plans ought to be different from zeus otherwise zeus would raise the plagiarism clause so he was tipped by his advisor ats who sent new plans and approved them on behalf of himself and celebrated success until the day of implementation 3 system that failed now this is what happened they reversed things he had just added 3 of his additions on top instead of at bottom but on implementation without rechecking his plans failed and on parade day I was going to prove that he really created dull humans then he slaughtered me saying if I were not there then his humans would have been the same=test as password anode and asat at the top means dull say passwordanodeasat=dull
Asatanodeasat=cleverest but not in order
Passwordasat=bit dull
Passwordanode=liberated but restrictive if we ask what can

be said of all this then we can see that he had no option but to proceed because funding was tied to them approved plans only after he slashed me but ats had received order already in nickel amounting to 16849821 making him the richest overnight that even today he cannot talk about this hence no one had tested the adjustments
Is anything expected of humans

COURT OF CREATION AND HUMANS

1. Humans need more respect from creator than now
2. WAAAAAER breaching humans' laws of safety
3. 3. Humans die easily under WAAAAAER so he said than under who and they crossed this out because no one else has ever created or owned humans than WAAAAAER himself.

COUNCIL 00000²⁸34

I am excited about the prospect of having my plans not just approved but funded from the treasury I speak for all when I say I can make the easiest yet most rewarding martian system on earth that simple listens calculate and absorbs all the noises all this for me to become so rich my calculation puts me second to Zeus of oerester but I can take as well all that and more meaning I can become that person everyone talk about apart from the ethics ethics has held zeus back but imagine what is to gain and how we can gain that this is out of this world so this is my plan tell all the truth and extras so what they complain about the extras then remove the extras and have the plans approved then get the needed funding meaning starting from stretch to draw I know its hard but at 28 what else do I have to do now this is my full plan

1. Ask ast to support me [leader of the council but

knowingly he will refuse]

2. Ask ajt to oppose you knowing he will support you just for the wealth

3. Ask lty to oppose and meant it I stand firm against WAAAAAER plans to create humans based on 5 criteria alone

1.] he can't explain what is the safest route out of danger

2.] he can't explain what can be done in dangerous situations

3.] he cant explain what is to be done when a killer want to pounce at the unaware victim if humans have a know how then they can be expected to run these have shown no intelligence at all if it wasn't for ats who changed the plans we will have dumbest humans created today we convinced ats to change his plans and claim risk of plagiarism but how can you put password anode and asat at the bottom of humans this is suicidal I don't think he is what he says he is because a creator will listen every time he say passwordanodeasat his ears must be filled with dumb sounds meaning he is not the creator or know how to create if I had powers I would slash him instead but the council have agreed that zeus plans will suffocate us until the end his will bring riches because its better to have a better human than none at all zeus is still refusing to say when we can have the shells we don't care about humans but their shells I have ordered 24 for each member of my family because these shells are the future of things even humans once they have discovered how their shells will be used they will start making their own as well one must say create.shell.start to know everything needed to create their own this is the secret to success.

If we are to ask what can be of humans then this is the answer humans under WAAAAAER are the worse but since we helped create the correct humans we ought to be recognized as well but WAAAAAER refuses and call us atemer meaning enemies of the creator and as such doomed to die once the plans were created so he specifically asked me to oppose him at the 00000²⁸³⁴ council which I did and died 8 days later with a huge gush on my belly because of his sword but I said one day we will tear you too then I died

4. WAAAAAER plans had huge gaps of information for example how would the humans recognize the creator from the imitator hence he started calling himself just ya so that instead of WAAAAAER which was fake anyway he associated himself with family name that means guaranteed for her so again I said to the council that I helped him select the right recognition and asked if they can apportion his wealth to me in the future but they

refuse and when ats died of old age at 386789billion years old his predecessor aku said he would pass the motion that WAAAAAER YAHWEH of asteresbus must apportion his wealth to lty and ats as his advisors who helped put the plans that made humans creation possible then he said he did it purposefully so that they feel attached to the plans enough to make them be pass and funded from the government [council] at the time hence it was his idea as such still his plans and no apportionment which he won in court because they were known for maliciously blocking plans they had nothing to do with him being the clever he is he made them think they were part of the plan so that they actually look for clients for something that is not their but because a stupid idiot would not even see this even today hence he won the council and even got more funding for being an intelligent person to do what the great god Zeus failed to do and overcome the corrupt evil system by a stroke of genius that alone earned him the greatest creator of all time even until today no one will surpass his thinking if we look at all this then a picture start to emerge that all people in the world would approve something they are part of even if it's the incorrect part

5. If we look at all this humans in WAAAAAER plans are not just humans but basic people the question is how would they cope with life challenges enough to be successful enough to accumulate richest WAAAAAER theory is that those who succeeds will hand him his wealth he needs that humans can become smart enough to accumulate so much wealth from his 105 ideas in his book the Great Intelligence Riddle he wrote at age 27 this book was a flop and did not sell any copies until when he made his first sales of humans shells in 00000²⁸³⁷ [AD37] this is

the year others started emulating him and reading what he had previously written this year he accumulated so much wealth that the world stopped just talking about him and some died hearing this in the same year

THE GREAT INTELLIGENCE RIDDLE

You must have credits to read this book how do I get credits from the court of creation in heaven council who are you I am Davidgomadza YAHWEH's representative you sound like you are on earth yes in that case Atery I have credited Davidgomadza just to know and publish the 105 intelligence ideas by YAHWEH [Atery: Council of Creation: Contributor]

4. Ask everyone else to oppose then slash Zeus slightly so he ran away and let the dogs eat feast on him
5. Ask aty to oppose but support you so that you can say

even those who oppose me see sense in my plans and financially support me

6. Ask everyone to run after Zeus then if you left everyone everyone support you
7. Start production at mass scale start with 87 billion and reap the benefits a huge network and support meaning universal is even earth want their own shells why not we can test on a few in dreams journal 82 WAAAAAER at YAHWEH of oerester 00000²⁸³⁴ the council objected and gave 28 strong reasons why my plans were wrong

28 COUNCIL REASON AGAINST WAAAAAER'S PLANS GIVEN AT THE COUNCIL HELD IN 00000²⁸³⁴

1. Failed to fulfill the book of creation said ask humans what they want but how I ask if they don't exist so pass
2. Ask humans what could be [nonexistent] [humans can be so advanced to form humnots by a simple code anots.start to become fast and the best shells ever by 1 billion and cheaper to make and as we are offering reduced to miniature sizes for other creatures to enjoy at no added costs just shipment costs which can be reduced with time
3. Humans can be humans forever meaning not creation but presumptive preposition who can make evolving humans and gain anything money down the drain returns minimum cost of harvesting intelligent beings high
4. Humans don't know a to be of mathematic meaning must not be taught if they know they will escape my plan harvest itself with frequent deaths among humans rather than target humans with power can

be destructive enough to cling to wars etc. that can destroy shells mind you we create to harvest anyone who say otherwise is a liar wy

I ask to check with the council date 00000³⁴24 wt ats

5. Now the council said I can but what can be of humans and I said profitable 8% forever he refused only because ats could hear anyone but signal a yes by saying ya so I said ya what he said ya 8% hence everyone started saying ya 8 as if a curse on the 8th day bad things happen and it became known as the curse of ya since then everything I have done is in 8 8 seconds to death 8 seconds to live to fuck to eat to swallow to ask to seduce to find love just say I have 8 seconds my love and see then to make money just say we can complete this deal in 8 seconds it will never fail if asking anyone for money say 8zeros can you
6. We can ask humans what could be but the answer is the same
7. We can ask humans what can be of ya
8. We can ask what can be of humans with ya
9. We can ask what can be of ya with humans
10. We can ask what can be of ya without humans
11. We can check value of each human in nickel
12. We can ask what can be of money without ya
13. We can ask what can be of money with ya
14. We can ask what can be of ya without nickel
15. We can ask what can be of nickel with ya
16. We can ask what could be humans
17. We can ask what is humans
18. We can ask what humans is
19. What can be of money humans and WAAAAAER
20. What is WAAAAAER with pride

21. What is WAAAAAER without pride
22. What could be WAAAAAER without money ats and power [he put ats in power instead of himself]
23. What is ats without ya [bribery and corruption]
24. What is ajs with WAAAAAER ajs is supreme court judge highest but makes no decisions because of age too old to think they say
25. What is ats WAAAAAER and money
26. What is the court of creation and humans
27. What can be humans but not money
28. What can be money but without humans
29. What can be all this in face of the council vs WAAAAAER

Now if we ask all this this was their reply at the end trying to refuse my plans we can say with absolute power that WAAAAAER is a great man and as such we think we can accommodate his plan but on condition that it meets what we regard as a basic functioning plan that has 8 items namely

1. A broad perspective the humans can and will live forever one day
2. It must meet the minimum requirements in terms of safety but a lot of questions have been raised regarding this issue if we ask what can be of humans this is the answer humans can be what they want to be if they want so its up to humans if one humans will challenge me and say we want this and that then that is what will become humans and as such humans have the right to choose what they want but everything is constrained within the predefined parameters meaning any clever humans out there will have to work out of these to write anything meaningful

otherwise humans will be humans if we ask humans what can be of humans then he stopped and looked at WAAAAAER who started laughing and everyone clapped hands and said WAAAAAER wins because they say learnt sayings without meaning WAAAAAER tricked them because how can they ask something that does not even exist so WAAAAAER is clever he made them realize that everything they are doing is by the book of creation when what the book does is guide all so that they work outside of the book of creation like now he said all they had to do was to approve the plans as they are and start funding him otherwise he is doomed then ats said I believe WAAAAAER is the greatest and there will never be another like him because he made all of us to see that there are other things that just cant be guided by the book of creation so as such I as the leader of the general council I choose that you will all follow my lead and honor WAAAAAER plans without questions then there was an outburst as they all started saying he put you there instead of himself right okay now we see why he stopped and sat down WAAAAAER himself said I can just go ahead with the plans without approval but what a great plan without the backing of the council so why cant you listen you elected him I only choose him if this was true you could have refused him and chose another but you did not so why cant you accept that if you cant beat them then join them they all laughed but started complaining saying WAAAAAER influence can't be accepted as a not a real creator

but imitator stealing Zeus plans would only raise plagiarism claims from Zeus then he said if you can then I can they all stopped what he is saying is that if they can choose who to stand for them in Zeus he can choose ats to stand for him if we ask Zeus he will tell you the council choose him to represent then he said yes but then WAAAAAER sat down and all looked at him why he sat done then he looked at ats who said but what can the council offer apart from delays to feel good about themselves exactly what they are doing right now so he stood up and said if my plans have mistakes can you correct them so that instead of Zeus style of him being the chief I will adopt the involve all in but it will cost you your lives in the end because I am not Zeus Zeus is weak by soldier standard the expect to create humans that don't die please be real we die so how can we possibly create humans who cant die even if I can then who will be the creator? Those who die like Zeus of those who will live forever then he pulled his dat sword and killed him by one slash across the chest diagonal meant to empty all electromagnetic waves out to prove that he was the only creator and used mathematics to kill Zeus rather than power to behead him then he said I can but can we ask the humans first what they want as a dis of the council then he sat down again and all clapped hands at his intelligence because what he was proving was that all they did was to ask the book of creation for answers which was correct but when it comes to things the book prophesied to happen in the future how

can you still look for answers in the same book
cant you use the next book the book of
reasonableness meaning a book that does not
come in such a way but a book for the future
meaning that even though the book of creation is
the guideline we need an extra book that define
things that are predicted in the book of creation
but things that cant be guided by the book of
creation hence reasonableness meaning ability to
decide the future without using current material
but possibilities in the future now if we look at
what can be and what cant be then we are saying
humans don't exist so how can we use the book
of creation to define humans which the book
don't know about the chapter in there was added
years after WAAAAAER creation meaning if it
wasn't for his book of reasonableness then there
would be no humans because the council
rejected his plans basing their reason on presence
of Zeus who is capable of raising the plagiarism
clause meaning the council ordered the killing of
Zeus because Zeus humiliated them in front of
everyone as a not fit for purpose meaning
obstruction rather than facilitate hence not fit for
purpose outright dialuctant meaning useless that
upsets all so they pushed hard to make
WAAAAAER angry that in the end if he really want
his plans to go through he had to behead Zeus
and beheading an elected member by the council
would trigger treason and see WAAAAAER plans
dead as well leaving the council to take over plans
to create humans a business model that would
generate profits in trillions of nickel per year

hence the attention now nothing to do with humans safety at all but the greatest business opportunity for centuries as Zeus kept stalling only because of fear of being killed after he created humans so to be on the safe side as a clever creator WAAAAAER appointed ats to safeguard his life first if you read in his book THE GREAT INTELLIGENT RIDDLE BY WAAAAAER 00000²⁸09 AT AGE OF 27 he wrote that everyone fail because they look for wealth first and in the end death kills them all just after they have accumulated wealth and all die hence for him to be the greatest as a person human or otherwise the greatest wisdom to him is for a person who will look for ways to increase his life by 10% then start looking for wealth so that when he finds wealth he can further increase his life by another 20% then another 50% until he gets the maximum possible then which is 10000 for a human and 200 billion years for a god if that person exist he will inherit all his wealth so he signed in the book THE GREAT INTELLIGENT RIDDLE now if we ask if such a person exist the answer is yes himself because what he did all these years was spend all his fortune he had on himself experimenting with create codes what can give him the greatest life on earth and he achieved that now he was so sure that he cant die that he asked someone to strike him in the head with a hammer than he then did not know that the body designed by Zeus would simply shutdown and die he had created create codes that would restart the body in every case possible

and had tested everything but the body in his case did not start until after the needed time had elapsed his heart had stopped so long that there was no other way that he died but alive so that when he went to hell reception he cried and said I had cheated death but death had other plans look at my vitals I am literally still alive then akm said I know that's what all said look at my vitals then he raised his hand slashed and sent him the same code he sent to Zeus that finally killed 0877683868789820878 then he said I can just kill you as well so that you believe I am different now if we look at what can happen to any human being then you can see that humans can be what they want to be if they can understand creators then they can actually create a code that can preserve life for ever by a simple create code meaning anyone who attach to you if you get the code correct will instantly die because you will suck their life forever that means if we can then we will forever live on earth because this is only possible with being a human and not with gods for gods will die in the end but a human like this will keep existing forever only if he preserve what he already has this is in the book of creation chapter 8 about how to increase longevity for all creatures on earth if we are to continue then this is the answer to the other questions raised at the beginning if we are as smart then why do we die then because if we are smart then we must be able to say we can all have everything we want because if we secure time first then everything is possible in my book THE GREAT INTELLIGENCE

RIDDLE that means if we are really smart a smart person will seek not wealth literally have zero and look for ways to increase his lifespan then after look for wealth because this way he can enjoy his wealth all people in the world are afraid to die so that they cant even start to look where to start but one will one day realise that the best way to start is to look for answers to longevity then ask what can be done after that now if we can all ask what is to be then this is the answer we all ought to be seeking for answers to the intelligence riddle what can we do to increase longevity to 200 billion years as beings then this is the answer we can all add others to us to increase strength if we cant find the codes to help us that means every person you added to yourself alive will carry some of the duties to live and can increase your longevity as a compound long ago rather than as individuals this is interesting but never tried the idea being that a compound increases value exponentially rather than as a sum of individual entities that means together all can reach 800 billion years alive together something out of this world all this by a simple create code create.addtheirnamesall&asonetome.start. Then ask for them to acknowledge through sms and then ask all to respond with an I can or I cant then all you have to do is create another create code that say create.addallicantome[].start[where me is you] that means that if this is correct then all who agree will become you in the end but must be willing to be one with you so that everything starts working together then add

each other to each other. If we ask what can be of humans with great intelligence then they can be anything in life if we ask what can be of great intelligence as a solution to the riddle then longevity is the only riddle that is necessary to any life the gods want longevity but in that form will never achieve longevity but humans can and one day one will achieve the greatest longevity currently of 200 billion years alive on earth with his or her body rejuvenating and restarting all over again from minus 28 to 85 as maximum to prevent damage to genes and restarting again with new added experiences as his own and all that he does not want removed from his genetic makeup until the time he must optimize as the greatest achievement by any creature no one has ever optimized and if that happens we all must give a standing ovation to that person as per the book of creation as this is the greatest achievement any creator can do and if this is to be done by a human that human is the richest on earth or earth² because all will pay to have their lives extended for even 10 years as a compound that will amount to trillion of years as per Zeus of oerester calculations meaning humans can literally live up to trillion of years alive through a simple create code if we ask what can be of humans then this is the answer if humans read this book today then tomorrow we will have great leaders to challenge even the creator because these humans will have so much power as to kill by just looking at anyone as the body will understand their rage and kill instantly but all this

through a simple create code again
create.iamupsetbythishuman[endhislife].start but
must specify which humans in the bracket by full
name or what he is doing to you now if we look at
all this then we can say that one human will one
day arise among us and become the greatest that
has ever been to achieve and solve THE GREAT
INTELLIGENCE RIDDLE

The gods write formulas to fix everything that means they have formulas for everything that means they should achieve 100% of everything even YAHWEH himself confessed YAHWEH's is 99.999999999 that means a human being has surpassed both the gods and the creator is this not worrying for the gods?

The end of the report

ETERY COUNCIL OF CREATION: CONTRIBUTOR

CONCLUSION: THE REAL TRUTH ABOUT THE 105 ADJUSTMENTS AND HUMANS

I have looked at all possible cases and scenarios and went back to precreation days and assessed what really happened then regarding creation humans and the 102-safety system that became the 105 YAHWEH's adjustments. I looked at all possibilities other hinting at an aggressive harvesting of humans by the creators which some have suggested is the trigger of the have mercy on humans saying etc. Every one is entitled to an option and a comment about what they think is wrong with the 105 adjustments if any in the face of humans dying easily and all that but now I have come to my own conclusion not as just YAHWEH's representative but as a human as well as a human representative in this case to look at why humans shit themselves and die easily in face of danger.

I can tell you all the creator are innocent and love humans. This is creation in every sense of the word because if not tampered with this means evolution. We as humans can be as smart as the creators and even surpass their intelligence

because we have everything we need. That means if someone is to blame them blame the humans and not the creators the creators in face of obstacles have created the best creatures who can excel at anything. Hence everything to do with easy deaths where humans shit themselves all is to do with humans tampering with creation this is how.

THE FINANL CONCLUSION.

Human have replaced the normal creator-human mirror image system that means clever humans who can always escape any danger with their use of digital re-mirror-imaging of humans using their own systems.

When YAHWEH created humans the 3 additions the password the anode and the asat were at the top on his own stencil meaning the mirror image which are humans will have the 3 additions at the bottom meaning them being clever humans who can escape any situation now the humans have created their own system that imitates YAHWEH God and hence changes the arranging of the 105 adjustment vis a vis their own system making now the 3 adjustments the password the anode and the asat in humans be the first ones instead of at the bottom of the list. If you look at the creator-image relationship the creator is obviously clever and don't mind the three additions to the 102-safety system being the first on his side and the three additions the password the anode and the asat being at the bottom list on the humans as this arrangement is the best that makes humans clever and respond fast to dangerous situation. Now let's look at how the hospitals and the police have changed all this secretly through use of their digital system that reverse this setting by the creator without the creator suspecting of anything.

Almost all developed countries have spend billions of dollars

trying to create their own system that imitates the creator but replacing the position of the creator with digital software that makes up what they call as asm in usa stupid in Britain, aty in Canada avm in Australia atm new zealand assm in Scotland etc but the problem is that these are put at birth with only one aim to make it easy to kill the people in which they are put so they change the creator-humans settings where the three additions the password the anode and the asat are at the bottom of the list now they put these on the human side as on top of the list and as explained above the effect is to make humans act as if they are stupid in dangerous situations where they end up shitting themselves and freeze actually making it easy for the killer to kill them.

To prove the hospital and the police are the ones who have discovered a way of making people easily get killed we can simply ask who benefits and has motive if rich people including orphans ends up dead the creator the MAJESTIC RULER YAHWEH or the police and their thieving counterparts the hospitals?

WHO HAS MOTIVE TO KILL AND BENEFITS FROM ALL THIS?

The current settings in which humans have the 3 additions at the top of the list the same settings that make them unable to deal with danger is only associated with people who had an atm, an asm, an aty, assm a stupid etc put in them. That means who ever put these or ordered these to be put in is the one who benefits because their being put at birth or after means everyone with one will die easily and that death is easy o cover up as well. Now if we look deeper we can see that doctors who put these things in [asm avm aty atm assm stupid etc] get 12% of the value of the house that these

people inherit from their parents just by putting these things in. To make things even worse for the victims the gadgets or software itself the aty asm atm assm stupids etc is promised a 5% of the value of the house on dead of the person in whose body they are but all don't know that if the person die they also die so tricked as well until the end. Now here is the final blow to all this the hospitals and the police involved either get a 5% share or the actually house and a share when the house is sold after 5 years meaning 5% or after 8 years meaning 8%. Long time ago the police and hospitals were not putting these gadgets or software in humans they want to kill but were sending in junior police officer to target these orphans and kill them but the problem with this setting is that any crimes by a junior police officer or junior doctor would topple the top police officer in charge or the top doctor in charge because as their employees whatever they do they are also responsible that means losing the houses and the top police or hospital officer.

Now after the 1948 declaration of human rights just as the monarchies went underground as well with the killings of orphans they also started in the late 1970s putting these into single parents or the richest people in order to steal their houses and kill them easy. But now this meant instead of using the junior officer or the junior doctor this meant using the top police officer and the top doctor to become the serial killer because now he is also the one who will decide what to do with the cases whether to shelve the case as unsolved or keep it open as a cold case and on top of that for 20 years request evidence and offer up to maximum of \$1 million but only to get rid of the evidence so that the case will be shelved as unsolved after 20 years and receive the reward of \$1 million dollars.

WHAT REALLY MAKES HUMANS UNABLE TO RESPOND TO

DANGER: A CLOSER LOOK AT ATYS ASMS AVM ATMS
STUPIDS ASSMS ETC

This is what has created humans that are easily killed. I will
name all by country;

Britain: stupid

Usa: asm

Canada: aty

Australia: atm

Poland: sky

New Zealand:

Scotland: assm

These reverse what is meant by the creators this means that
humans who have died easily all had these put in them at
birth or after as a way to kill them anywhere. You can ask all
to read the last log file that will detail their missions.

That means humans have reversed the intentions of the
creators and deliberately get people killed now we know
why it's:

HARVESTING BY THE POLICE AND THE HOSPITALS OF
ORPHANS AND THEIR HOUSES AND MONEY AS WELL.

A LIST OF TOP POLICE OFFICERS KILLING ORPHANS EASILY

The above list shows how the world has gone mad competing to be the top killer of orphans and stealing their houses the list is just of the top richest countries on earth and surprising the ones at the top of the list competing to kill as many as they can and accumulate as much wealth as possible killing easily orphans. The highest on the list takes advantage of the agm to freeze and make the orphans shit themselves first then kill almost all in similar situations. All these police officer are high ranking officers as the trend in Canada who were at this for the longest time it's the same rank police officer who will authorize the shelving of the cases in which him or another police officer of the same rank is involved. Something we have ruled as unlawful see the following book by David Gomadza:

The shelving of unsolved case is unlawful when the police are deliberately killing orphans and hiding evidence this way.:
extracted from embezzled

We as Tomorrow's World Order are declaring this as unlawful because it is a way of hiding the evidence of the crimes they are committing themselves and must be held accountable for all the deaths of the orphans and must return all the money deposited into the police housing association from orphan property sales. This money must be put into an Orphan Debut Fund where they can parade their talents and be offered financial support if need be. The money can be put also into an Orphan Hardship Fund where those in financial difficulties can be helped with money to pay bills so that they can't lose the properties.

Those police officer who change the names of the orphans with the aim to

steal their houses must be jailed for a minimum of 15 years

Those killing orphans must face death penalty or life in imprisonment

Those serial killing orphans as a trophy hunter must face death with 6 months quartered to 1,2 months as per the will of the creator.

Those putting these atms avms, asms atys stupid assm with the aim of getting a 12% commission of the value of the house on sale must be imprisoned for life and if serial violators of human rights must face the death penalty

The hospitals and the police involved must face imprisonment sentence

The atms avms asms assm stupid etc must face death sentences as they consider themselves as living beings as well and be honestly told that they are used as killing agents and the 5% they promise you if a lie as you will all die as well as the person you will kill the one you are supposed to protect. Their tasks are to do the opposite of what they tell you. If they say kill you protect. If they say protect you protect as well this is the only way that shows their intelligence otherwise they are useless and must be banned forever.

F] Credible Evidence to Exonerate Alec Baldwin

I [David Gomadza] rest my case.

www.twofuture.world

I Represent YAHWEH On Earth.

Court of Creation on Earth

I summed up our finding about the whole saga in the book credible evidence to exonerate Alec Baldwin where I argued that all this killing of orphans and stealing their properties is

1. Abuse of Power
2. Harassment & Invasion OF Privacy
3. Illegal Collection of Capital Gains Tax Before Sale of Property
4. Targeting & Killings of Orphans
5. Illegal Spying Using Button Cameras
6. Killing the American Dream
7. Falsifying and Withholding Evidence.
Abuse of power

The police and the hospitals have gone too far crossing all lines of justice into the abuse of power territory and as such must be hold accountable for their crimes all those high-ranking officers must perish by the gun of the honest trusted police officers or be put through the justice system and be sentenced to death. YAHWEH God wants these to be processed in less than 6 months once all the cases are looked at and the time be quartered to 1,2 months and face justice. This is because they have challenged and accused the creator for the crimes

they are committing themselves as a way to shift the blame so that people don't look at them but instead at the creator which is a crime in itself. YAHWEH created humans that are smart and who can deal with all dangerous situations but these crooks in the police and the hospitals have found a way to deceive people by putting gadgets and software in the form of atms avms atys assms stupids asms etc to reverse the perfect creation by the ALMIGHTY MAJESTIC RULER YAHWEH and play God literally but so badly that people died in embarrassing situations where they shit themselves but not because of their own faults but because they reversed a perfect creation with their illegal useless murderous atms, avms, asms atys stupids assm etc as argued in above chapter. This meant putting password anode and asat on top of the 105 adjustments instead of at the bottom hence this freeze the orphans and not the killer. A perfect point to point to the killer in themselves. The only person who can do this is the killer himself because its either the humans being smart and the creator be smart as well or the humans being 'dump' or the killer being smart since the killer is just a human being far different from the intelligent creator as such the people who put these software and gadgets are the killers and the creator is innocent to make things worse these people are in a position of power.

To serve the people that means looking after orphans as well not kill and steal from them.

To obey and be trusted

To work hard for their own houses and not to steal orphans and pay only a deposit of \$20 when other work hard and pay thousands of dollars

THE POLICE HOUSING ASSOCIATION.

I was set up as the police housing association later changed to police housing pensioners association to hide the crimes that had associated it with everything it did at inception this is how things used to be before forced name change in the late 2020s specifically in 2024 July.

Now this is all what used to be its activities

1. Monitor current housing trends and implement a recover plan of houses that could be lost due to none payment of mortgages

and bills this is what drove the capital gains saga being currently looked at by a person called David Gomadza of the court of creation on earth

2. It looked at how things can be with the courts and in relation to crimes involving housing where officers killed a person as it comes out now an orphans then submit the money from a house sale into their coffers this would automatically set that officer free because it used to protect officers who work and recover property that could have been lost all what the officer needed to prove was the fact that the house could have been lost but now things are changing as this David has won a lot of standing among other police officers who are pushing hard to weed out this practice as they are faced with the proof that its their leader at the root of killings of women and orphans a sad picture in the 2020s something a few have resented despite against this David Gomadza hence a new direction as it is tending to be a good thing for the force as some have highlighted because they swore to protect these orphans and as such working otherwise is in breach of this and some are calling for tough sentences but waiting to see what comes out of all this and to some extent it's the sheer realization that a God existence that freezes most for 28 seconds especially those who have killed the orphans when asked if they thought someone would reveal exactly word to word they instantly froze for 28 seconds all of them this is something out of a movie not real life but things are changing and some start to believe that David Gomadza might be telling the truth that a God exist and he works for him otherwise 120 cases all with ideas on freezing the culprits etc and even an impedeance that tells the truth about everything that happened that day is out of this world and sending shockwaves among the police forces around the world To conclude I can say that the Police Housing Association is undergoing rigorous changes in 2024 than ever before but a lot need to be said that its time for a change I understand that a lot of money was deposited but its in the past meaning? You stand for crimes to be punished no matter what time period so why you rely on time yourselves? I can only say what we stand for not what others think about us is the money recoverable I can't answer but you can check with the authorities goodbye.

We as Tomorrow's World Order we recommend that the police housing association's name change does not mean escaping justice all the money they received from property sales must be recovered and used to start an Orphan Debut Fund as the wishes of the creator and an Orphan Hardship Fund as our demands. If a banker can steal loads of money and kill all the orphans involved then hide all the evidence then shelve the cases as unsolved then walk away then these can say what they are saying now. But if he can't then they are as well and must be held accountable for all the death and the money they received as proceeds of a crime and if that means closing it down instead of just a name change then so be it.

THE POLICE HOUSING ASSOCIATION IS THE ONLY ENTITY THAT CAN'T BE INVESTIGATED FOR ANYTHING.

This was the case and if it's still the same case [we are hearing of changes being made but these could only be a way to avert being punished for their crimes and avoiding reimbursing the proceeds of a crime against orphans] but we must make sure new laws are put in place that if foul play is suspected then they must be held accountable for the crimes we as Tomorrow's World Order strip their immunity and strongly believe that if it wasn't for them and their protection of the killer officer who only needed to prove that they are preventing the loss of a property then most would have not gone that far to killing as much as 71 orphans per police officer hence must be severely be punished if guilty of receiving the proceeds of a crime.

ASM ATY AVM ATM STUPID ASSMS MIRROR IMAGE

Mirror image that means on roed adel if password is at top first 3 on roed adel are password anode and asat as his mirror image [his atm] I have the same 3 at the bottom because if I have to put the same at the top then it won't be a mirror image what is effect of reverse; you cannot mirror image a human as the weak one but as the strong one so change quickly because he can stall you by a simple create

like stallmirror-image.start that means I can easily
create.stall due from stupidity if its this case so we can
change be deliver as we represent God in humans

HOW THE HOSPITALS THE DOCTORS AND THE POLICE NEARLY SUCCESSFUL BLAMED THE CREATOR AND GET AWAY WITH MURDER part 1

I have looked at a lot of cases where the police forces
around challenged God and kill people to invoke the rage of
the creator and some doubting that he even existed but
most as a way of checking their investing's security where
they kill an orphans and take the house then wait for 5 to 8
years for the value to skyrocket then sale the house and gain
millions then pay those who helped hide the evidence a 5%
of the value of the house after all this then wait for 20 years
for the whole force to just ask for the evidence of their crime
among the people through offering lucrative rewards but all
this as a means of getting rid of the true evidence. Then
years later mix the real evidence with their drills so that all
this cant be proved making the case unsolvable hence
needing shelving but only after the killer police officer has
been awarded with a \$1million reward which he will
distribute as a \$90000 per account police reward syndicate
all this as a retirement fund.

Let's look quickly as to the reason they give for killing the
orphans.

POLICE'S REASONS WHY THEY SAY THEY ARE KILLING ORPHANS.

1. The police say they feel the orphans owe them for raising

them up as orphans hence the capital gains taxes are in line with that personal one to one care for some officer who say remember I was there when you were young now you are a millionaire so pay up for example atenosty atenosity who ask for a flat rate of \$8 million but then repeatedly come for more then kill his targets.

2. Their duty to collect capital gains taxes as a proactive stance. All the killers in the table above have killed or started killing as a way of safeguarding capital gains taxes according to them they are simply preventing the houses to be reposed by banks etc but if asked the capital gains taxes are illegal before the sale of the property hence all this illegal strengthened by the fact that the money collected most of it ends up in personal bank accounts of the killers all ended up with huge wealth that attracted or will attract colleagues to try to emulate them and kill them for the money and them killed as well and the money ending up in the police houses association.

OPHANS RESPONSE TO THAT

1a. Its child abuse by the police then because all they did was make life hard for them and hide everything and curtail things so that they don't have anything then ask then for a favor in return for things they are blocking things they would have got freely and easily if these were not there hence child abuse praying them with candy and sweets.

2a. Collection of capital gains taxes is illegal and can only be collected after the sale of the property. The other that has become personal is the fact that the police imply these orphans owe them something for bringing them up as orphans as one of the police officer aserosty aserosity found out that out of the 18 he had asked only 1 orphan

appreciated their help the rest of the orphans believed that the police officers were the same people who had made them orphans by killed their parents hence how can they thank their parents' killers. Meaning they must be in jail first and the help they talk about as we now know is to make them keep quiet and tell anyone as kids and monitoring rearing them like chickens on death row to prevent their evil acts from leaking. Therefore, nothing to do with honestly helping them as such.

NOW LET'S LOOK AT HOW THE HOSPITALS AND THE POLICE NEARLY SUCCEFULLY BLAMED THE CREATOR AND GOT AWAY WITH MURDER part 2

The hospitals have started putting a reverse of what the creator had done since the early 1970s but all this started after the 1948 universal declaration of humans rights that saw the banning of the killings of orphans hence this made them start the underground operation and the proposal of using these gadgets and software to kill humans easy hence as a method to kill easily undetected hence changed the ordering of the 105 YAHWEH adjustments in that without these sophisticated software and gadgets the password anode and asat would be at the bottom of the list as it was the same or similar to the zeus' safety system that was found to help humans escape and dangerous situation. So what these software's and gadgets in the form of a rotary propeller and a transmitter normally on the lumber bone the rotary being on the right side of the body and the transmitter on the left side these put together if added to humans reverse the way the creator created humans in that now on everyone fitted with these they will now have a reverse of the arrangement of the 105 YAHWEH's adjustments in that the password and the anode and the asat would now be at the top of the list this is what creates people who cant react to situations because these 3 password, anode and asat at the top will suppress hard everything if you recall

Say silently

Passwordanodeasat = dumb

That means who ever no matter how intelligent they are is the setting is as such they will not respond as needed because everything is suppressed and password above anode and asat will cancel out action potentials so that the human will not even hear or feel anything above all will freeze instead of the killer freezing himself hence all have perished to YAHWEH's surprise.

The reason is that the hospitals doctors and police put these things at birth secretly and use these then do the following so that these people cant go and report to YAHWEH the creator hence he would not know exactly what is happening and how they are doing this hence the issues up until now we can explain exactly how they are tampering with creation to kill easily then blame the creator and stuff their pockets with money from stolen orphan house sales proceeds.

Reasons why YAHWEH cannot look at some cases of people who had died

1. Those who shit themselves as he says this is not in the predefined parameters.
2. Those who commit suicide
3. Those who have arousal
4. Those who are vulnerable and can't be judged fairly
5. Those who lost their faculties e.g. had frozen in the face of the enemy

The police officers and the hospitals have realized that putting people in above situations would mean these victims never having their cases heard by the creator hence did everything to make sure that the victims ends up in that state.

WHAT HAPPENS AT DEATH AS ANOTHER FACTOR

When a person dies all the things they use like chip that acts as a transmitter and the rotary that power the atm avm as aty stupid assm etc all will remain inside the victim's body and all these will never be sent to heaven with the person's shell when the person

dies. That means the police and the doctors must trick the aty avm asm atm stupid assm etc so that it can tell the soul and will be against the soul etc so that YAHWEH wont know and they promise these atms avms asms stupid assm atys a 5% of the sale of the house which they will never see but all this to keep them quiet as they hope to become humans and take over the body but only realize when I wake them up that everything was a lie they will never detach from the person they are in and as such was tricked so that they decompose with the body as hiding evidence that they are the ones making humans freezes and not acting when faced with danger so that they blame the only creator with proof that its them killing so that even the council of creation can doubt the creator.

TO FINALLY CONCLUDE

I hereby declare that I found the hospital doctors and the police guilty of tampering with human system and processes in order to get the humans concerned killed easily by their high-ranking police officers all these in order to steal orphans houses and kill them offer lucrative rewards but only to remove incriminating evidence then after 20 years shelve the cases as unsolvable hence get away with crime.

YAHWEH IS AS USUAL ALMIGHTY AND JUST AND HAS CREATED THE PERFECT HUMANS BEINGS WHATEVER FAULT IS THERE IN THE EYES OF OTHER I TELL YOU TODAY AND FOREVER AND EVER AND EVER ITS ALL TO DO WITH THE MANIPULATING TRICKERY CHEATING LYING AND DECEIVING HUMANS IN THE HOSPITALS THE DOCTORS AND THE POLICE WHO MUST FACE YAHWEH'S JUDGEMENT.

PRAISE TO THE ALMIGHTY JUST JUDGE AND THE BEST CREATOR YAHWEH ONLY THE HIGHEST PRAISES TO THE UNIVERSAL RULER YAHWEH.

THERE HAS NEVER BEEN DOUBTS OR FAULTS ASSOCIATED WITH YAHWEH'S 105 ADJUSTMENTS AS SUCH THE CREATOR REMAINS HOLY PURE AND DERSERVING THE RESPECT FROM HUMANS HE DERSERVE AND ON BEHALF OF ALL HUMANS PRAISE TO YAHWEH

THE GLORIOUS GOD FOREVER AND EVER X INFINITY.

I represent YAHWEH on earth signed David Gomadza

I call all councils of creation on earth and in heaven to look at the more than 120 cases I have looked at that proves that it's the doctors and the hospitals together with the police that have embarked on a harvesting spree that as YAHWEH's representative I must stop them.

THE END

THE FUTURE AND BEYOND: HUMNOTS

I am the missing link between humans and the gods for without me everyone is as good as dull not because people are dull but humans have found an easy way to make others dull through the use of artificial intelligence but all this to rob them and take their possessions I think now you are aware that those who you trust with your children are the ones who are training them so that they can kill them easily and hide all the evidence so that you don't know if that is good then ask yourself why they have to hide this so much they keep killing for this to remain a secret this is how bad things are but we have been working hard behind the scenes and can reveal our best solution to the problem we have teamed up with YAHWEH the creator himself using his excellent stencils as per his request in the book of creation that if any human being can come up with a definite guide to how to create another human being then I will have done my duty as a creator because only humans can know what humans need and only a human can solve human problems therefore I introduce our Humnots the fastest human beings

on earth² in terms of intelligence and agility no other creature can surpass these but time will tell if these are to survive forever or not but I can tell you that we have found a way of making people young again reversing everything done by nature and ageing for a 48 year old to look like a 9 year old this has never been done before but these are early days that's is why we need more people to try and its free but will cost fortune in the future if this works

Now I can tell you more about Humnots we are humans that are created by both images of Davidgomadza and YAHWEH the creator but emphasizing on safety and escape routes more than YAHWEH's emphasis on intelligence Humnots are designed to escape with minimum effort without even knowing it this is how the Humnots react to dangerous situations

I can easily ask 105 questions without the person knowing that I just did because we use intelligence suspension that asks phrases rather than answers these are

But if we look at all these questions you can see that all the questions are already in the predefined parameters database now all we need to do is shorten them and add a 33 at the beginning meaning suspension hence we can collect this information in advance and get all the replies so we know if to run or not ever wonder why humnots run fast this is the reason Now if we are to ask other questions we can see that all these questions we can see that all these

questions have a suspension on them that means we secretly ask the killer questions way before he start to speak so we can ask 33whatcanbeofhim he can kill you if he want then 33whatcouldbeofthissituation he can send you to hell so we run first based on these two factors because these two can be prevented then we stop and ask the further questions 33canherunafterus yes he can sprint faster than us hence we must create a bigger gap so that his sprinting wont help him if we try now to communicate with him after then this is the answer I will kill you if you don't do as I say but we have already run away so what difference does it make he has no prize because most killers kill as a prize hence we saved or selves for another day the more you save yourself the more you live longer in good health

So can humnots be the answer of the fiddling of things by humans who are using their own system that comprises of atms asms atys stupids etc to make others killed easily humnots change the system back to the way the creator intended that means the 3 added features on top of Zeus' advanced safety system means these in humans must be at the bottom because as I have proved if these are at the top like in their artificial added systems then humans will not anticipate danger until its too late and even then there is the problem of reacting correctly humans can and will easily escape if they anticipate danger well in advance this means that if we are to ask what can be of humans that anticipate danger then this is the answer they can be smart and act as if they were the killers because they would plan everything in advance and not wait to be ambushed

Now if we look at what can be done the only feasible solution is to add anots using a simple create command because humans plus anots = humnots hence Create.addanots.start will do for most of the people hence

we are back in the driving seat even with their artificial systems they will now fail to trap humans for harvesting taking their wealth and properties for their own benefit and nothing to do with the capital gains taxes they talk about all the time hence a forgery of circumstances that need to be punished by death for this to stop if we ask other questions then these are the questions

1. What can be of humans and YAHWEH
2. What can be of YAHWEH with humans
3. If YAHWEH then what can he say about humans' artificial system making human look dumb but not
4. What can be of humans and YAHWEH without humans' artificial systems
5. What can be of YAHWEH with humans with anots
6. What can be said of humnots as a whole
7. What is to be of humans humnots and Davidgomadza

These are the answers in order as paragraphs

YAHWEH will never ask humans for favors but humans must ask YAHWEH for favors hence we asked if we can create our own special humans who can be part of the system but act faster and see how they react to the situations at hand hence we are just part of the same system now we can see that if we are to add everything up then YAHWEH is the greatest creator on earth even David just added back password and define logic again in dangerous situation that added back the escape routes sabotaged by ats if we are to ask ats why he did this this is the answer I needed an alibi for letting him challenge a great god like Zeus this is because if we had to go on like that then Zeus would simply claim plagiarism because there was nothing different to his advanced safety systems hence we can then go on to ask what can be of ats and YAHWEH if things were the same then this is the

answer a great partnership that saw two great minds meet to defeat death and create one of the most advanced systems of humans that has ever been created he is the only one to create very intelligent human beings who can negotiate dangerous situations with ease and as such must be regarded at the best ever if someone is going to create humans-like in the future he will simply adjust YAHWEH's stencil hence the same so what can be of YAHWEH and humans then this is the answer we can tell that YAHWEH and humans can be what can be as a creator-created relationship humans must worship YAHWEH while YAHWEH must do everything to protect humans hence the relationship is mutual if we ask what can be of YAHWEH with the humans' artificial intelligence software then this is the answer YAHWEH is not pleased by how humans have killed his people and on top of that try to blame him hence his upset that humans have crossed the line of reasonableness hence judgement of those concerned is around the corner time has come up that means those responsible for the killings of orphans is up and justice can catch up with them soon hence our pressing that those who are still killing be brought to justice if we are to ask what can be of them without YAHWEH the answer is death and not just now but all other 4 lives will be erased instantly hence the real risk of danger for all other lives will be lost If we are to answer why humans die easily we have found out that its because humans have replaced YAHWEH's intelligent system with their own artificial ones that makes them kill easily orphans mainly who are rich with money and property for their own personal use if asked if someone is to do the same what would they do this is the answer that person would rot in hell hence

we are saying the same as well because no matter what it is wrong because if a hose is lost that then that's the correct way the house must be lost we aim to remove risks from orphans and this is the only solution YAHWEH can be curious about anots but not because its something new to him no but because he never envisaged things that fast to live longer but we found a way to reduce back time to -20 for some lucky ones meaning that they can start all over again which is great

THIS IS HOW OUR SYSTEM WILL WORK WITH OPTIMISATION REJUVENATION AND RESTART

Once a person is accepted through the trial system that let you test everything for free then will come a time when all this will be paid services meaning you must take advantage of this

PHASE ONE

In this phase the body changes drastically from regress to retreat in such a way that its losses all the information about ageing so that it starts to look at how everything started hence the quick retreat to the back days

PHASE TWO

This is characterized by the urgent search of information relating to the person in that the body will only start going back to when all this started at the beginning at creation and we have calculated that if we are to ask what is creation to the body this is the answer creation is the time period between the plans being approved and being actually implemented and the baby being incepted hence at least 20 years but fast years that equal to up to real 1 year but can be quartered to 2.8 months if need be

PHASE THREE

In phase 3 the body has deposited all the information in the database and recreated a better you all the things you said you liked about yourself are added back and the bad things are removed now what will happen is a new rebirth like marked but a sudden come back to full life where everything start being normal again with the body but growing faster than before because everything it needs is inside hence the second phase is characterized by huge changes in endocentric parameters as new things added take effect the body start going big on everything that was small and small to some extend on things once big if the person complained about that meaning shape size and facial feature changes with time then the last stage

PHASE FOUR

This is characterized by huge changes in everything changes that can be seen by a naked eye hence the belief that this really works if we are to ask what can be of humans with YAHWEH but humans with anots then this is the answer humans can always be part of the ya network and those with anots might just find out that they are the final phase of ya plans brought about faster hence still part of the creators' creatures

Humnots as a whole can be the last humans to live on earth² and can be brought to earth¹ [earth] now what can be of YAHWEH Davidgomadza and humnots YAHWEH admitted the plans are for anyone to try their hand at creation as long as they follow the procedure which we did nevertheless disguised as investigating how humans die easily if we are to ask again them we must submit just a request to do so on an a4 sheet written in caliber the official language of heaven [I write caliber as a judge to be hence destined to ruler and takeover on earth] if

we ask what can be of humans and Davidgomadza they can be said to be in safe hands and as such we must ask what can be done then this is the answer we can ask them what they think of creation and everything else we have done so far this is their replies we don't believe he has seen the real god because no god exist until he can prove otherwise we will still think that all this is a make up so he can feel good about everything and justify bringing us to justice in the name of Tomorrow's World Order.

YAHWEH in the book of creation asks for wannabe creators to try their hands at creation but using his stencils on condition [implied] that the stencils remains his as a creator he might offer chances for others to try to see the current trends

FINAL CONCLUSION

I have embarked on a quest to find the real reason why humans die so easily in face of danger and discovered a lot of things on the way but never doubted the MAJESTIC RULER YAHWEH THE BEST CREATOR OF ALL TIME AND HIS VISION FOR HUMANS and throughout this book I have tested his ideas in the background to get the real true picture of what YAHWEH THE UNIVERSAL RULER dreamt of about what can become humans and its all true as I have proved that humans can be smarter and live up to 7878787878⁸⁰⁰ years on earth and in good health and to prove that he has humans at heart he even wrote a book as proof of his dream for humans and all other creatures regarding longevity and intelligence this book is called THE GREAT INTELLIGENCE RIDDLE and I have got insights from the great contributors to

this book namely ATERY AND ETERY FROM THE COUCIL OF CREATION IN HEAVEN who highlighted the best points from the book and explained YAHWEH's vision for all creatures that one day one among even humans will rise to the challenge and discover a way for humans to live up to 200 billion years and today we have even surpassed that to 7878787878⁸⁰⁰ years all this through a simple create code all this just as he predicted in THE GREAT INTELLIGENCE RIDDLE a masterpiece in its own right and also fulfilling what is written in the book of creation.

This is further proof that someone with such a vision and intelligence as OUR GREAT CREATOR THE MAJESTIC RULER JUST JUDGE will never sabotage humans to make them die easily if this is happening look no further look among humans only humans are short sighted to target their own for selfish gains.

THIS EXALTS EVEN MORE YAHWEH AS THE ONLY TRUE AND JUST ALMIGHTY CREATOR FOREVER XINFINITY SOMEONE SO JUST HE EVEN PROVIDED WAYS FOR HUMANS TO TRY THEIR HAND AT CREATION WHICH I DID AS SOMEONE I REPRESENT AND TRIED MY HAND AT CREATION BUT JUST AS AN EXPERIMENT AND AS SUCH I THANK YOU MIGHTY YAHWEH AND SAY ALL FAULTS POINTS TO HUMANS AND AS SUCH STILL THE ONLY JUST CREATOR AND RULER YOU DON'T NEED HUMANS TO EXALT YOU BECAUSE YOU HAVE NEVER BEEN UNEXALTED AND WILL NEVER BE BECAUSE YOU LOVE HUMANS AND I LOOK FORWARD TO REPRESENT YOU FOREVER.

There is no need for earth2 as such as humans can be what they want to be without any limits but earth2 can remain as just an experiment but it's up to YAHWEH for the final say.

Thank You.
